(Author) Introduction:

This book is written by Aarth Nema who studies in 'Medicaps Int. School' in 6th standard. I hope you would love reading this book written by a simple boy of India, Indore, MP.

Chapter 1

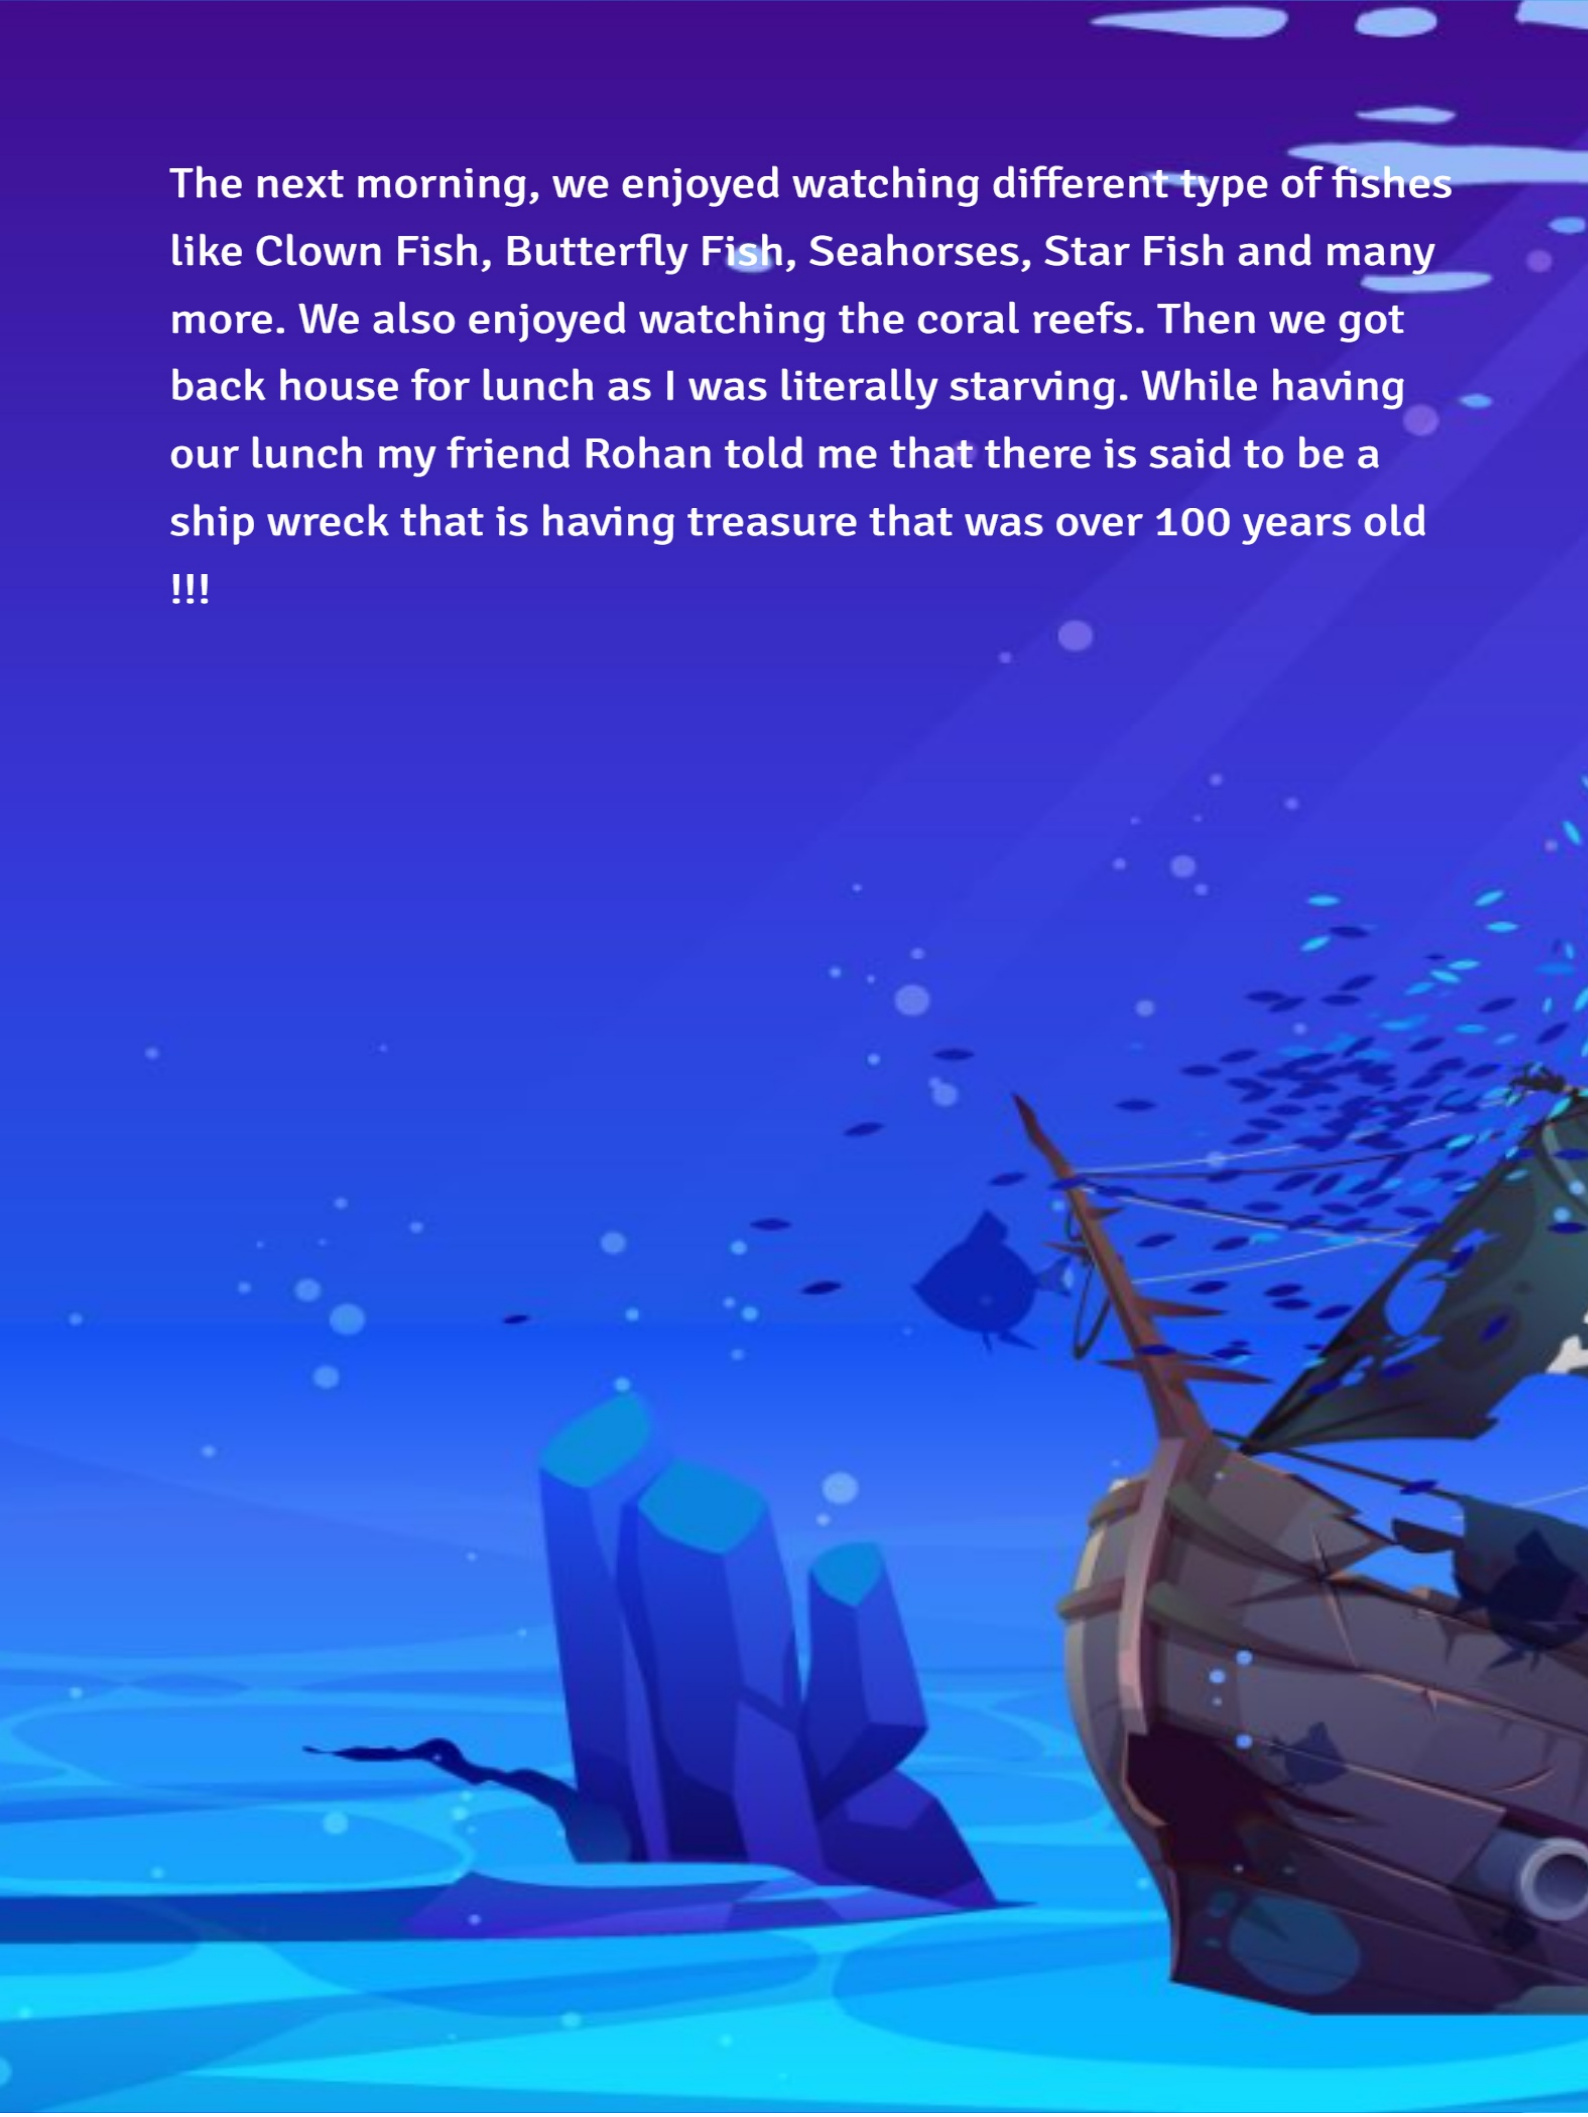
The Journey Begins

I graduated from college and started to look for a job, but I couldn't find one till two years. I choose Biology as a really loved to be with animals, and they were my pretty good friends. After I finally got a job of a scientist soon I got a holiday because of some project. And so I started to look for a spot to enjoy my holiday on.

Near the Indian Ocean lived my friend Rohan. He asked me to come to his house, and together we will enjoy the views of the Indian Ocean he also told me that we can together go to the ocean as he had a personal boat. I was really excited and bought the tickets right away.

The next day I boarded the train to reach Rohan's house I was really excited as I have never visited any ocean before. The train was delayed by 1 hour because of a technical issue. I was tired as I had to get up early to board the train the seats were very comfortable, and the scenery was very beautiful. It was a 3-hour train journey. I reached Rohan's house at 8:00 pm. And slept there for night.

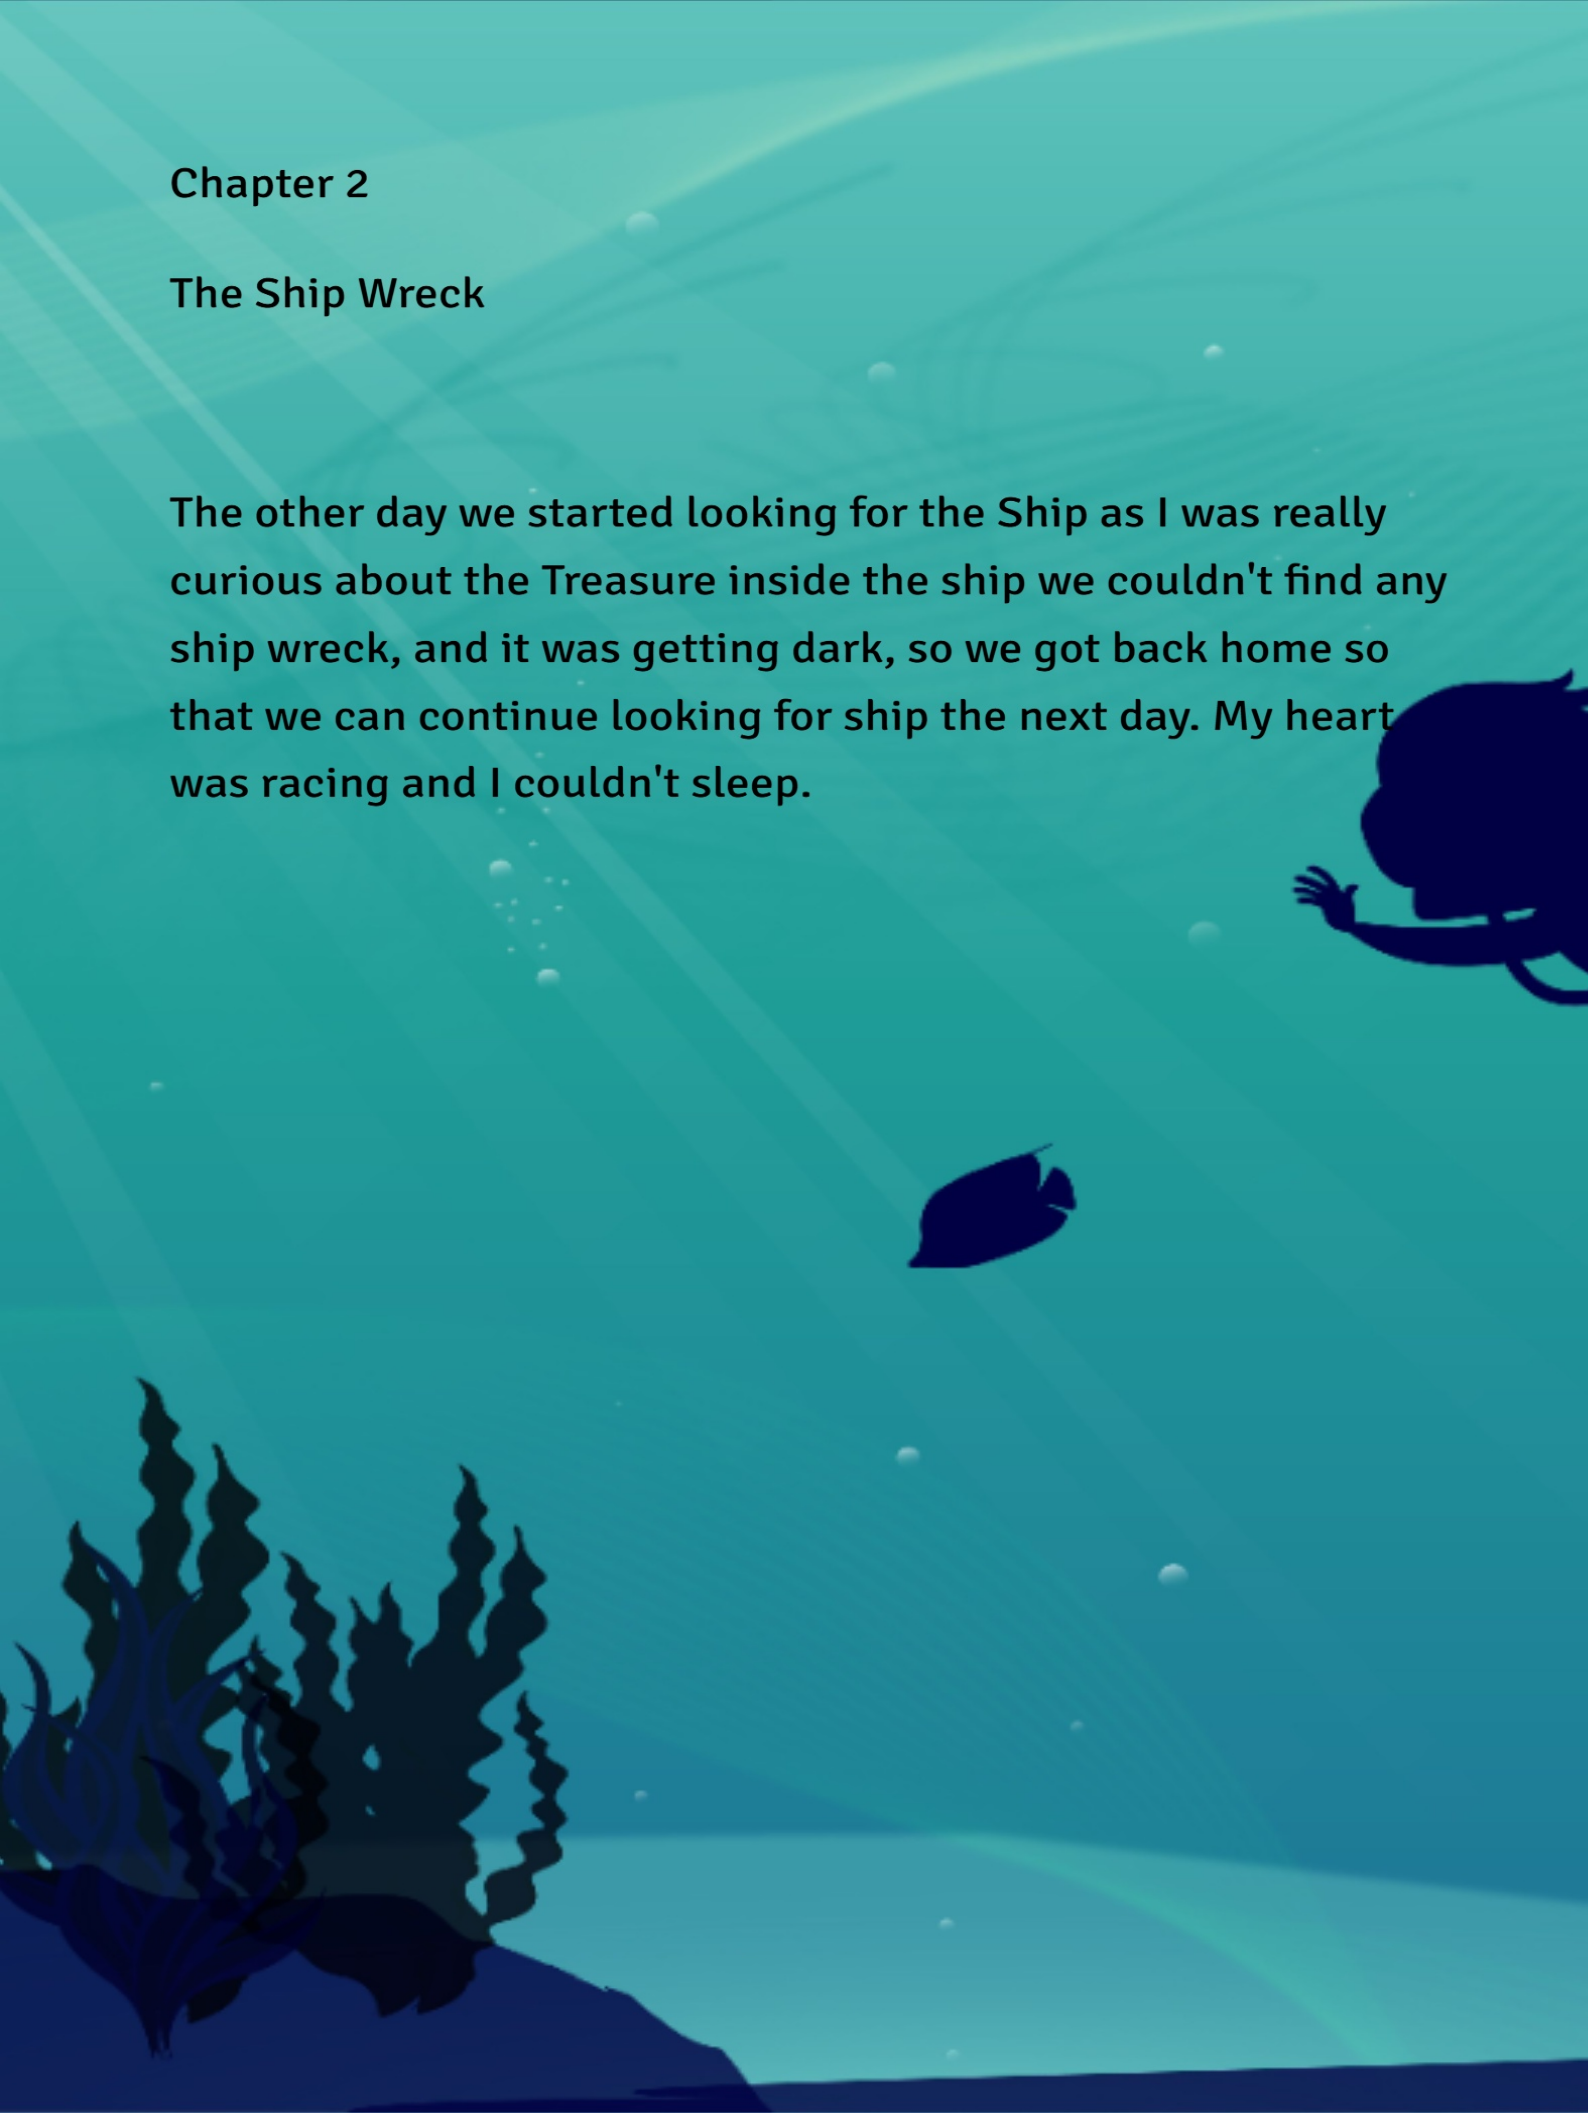
The next morning, we enjoyed watching different type of fishes like Clown Fish, Butterfly Fish, Seahorses, Star Fish and many more. We also enjoyed watching the coral reefs. Then we got back house for lunch as I was literally starving. While having our lunch my friend Rohan told me that there is said to be a ship wreck that is having treasure that was over 100 years old !!!



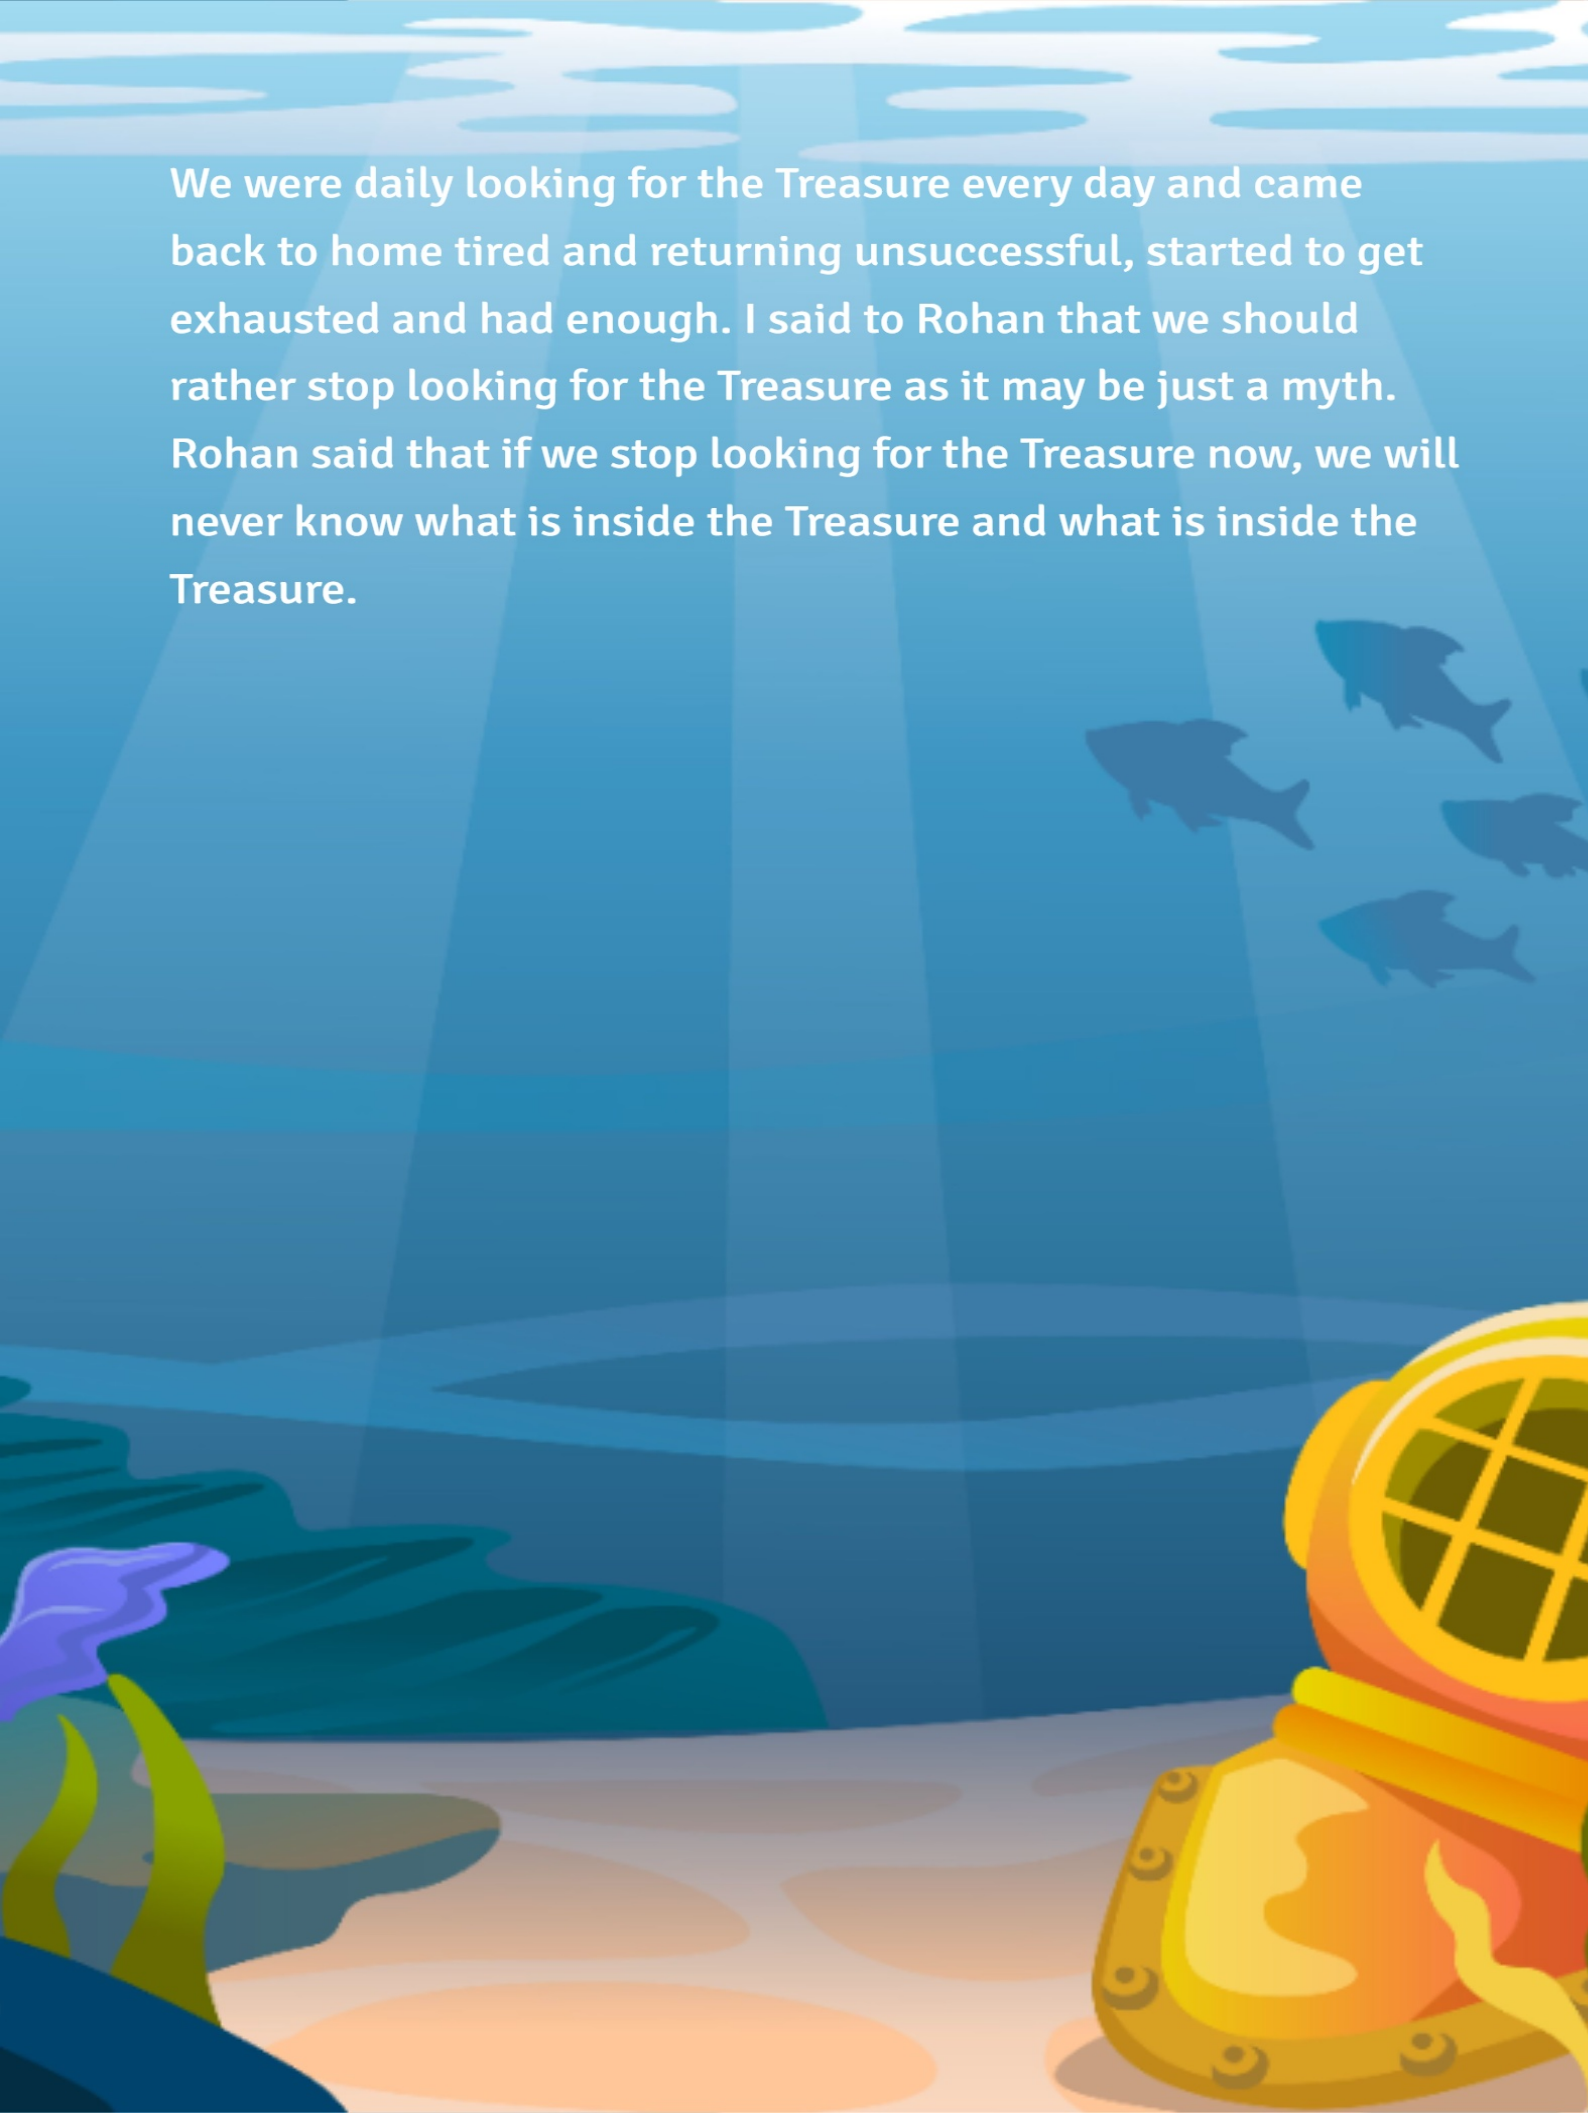
Chapter 2

The Ship Wreck

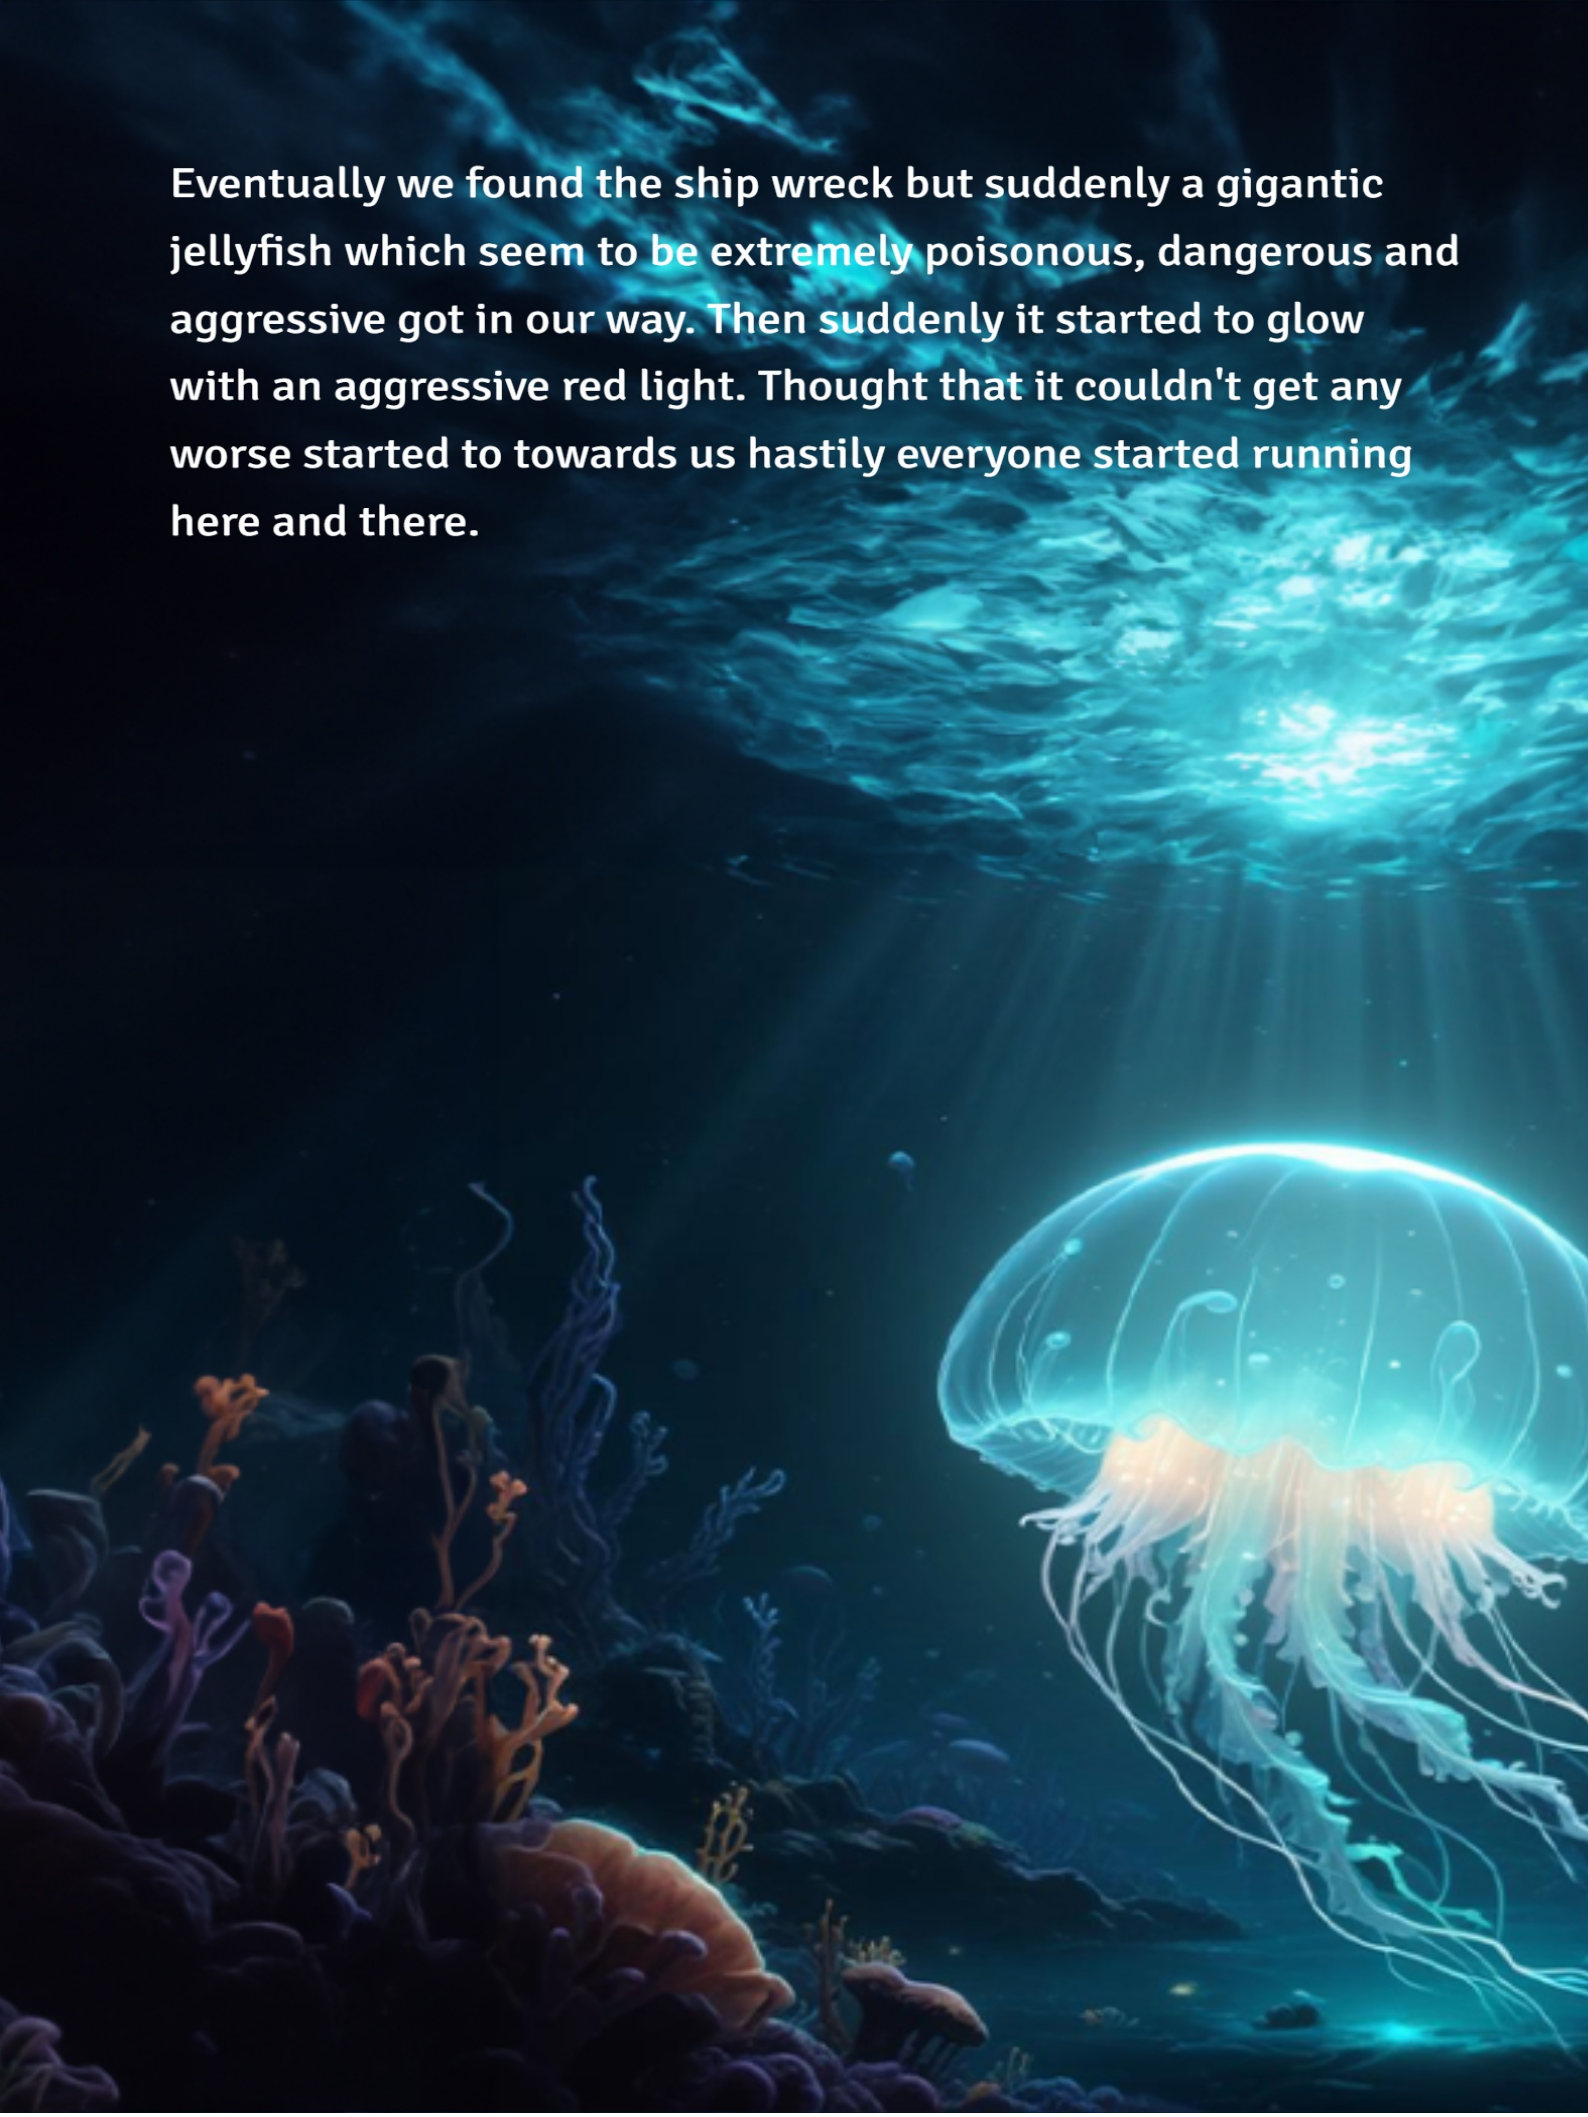
The other day we started looking for the Ship as I was really curious about the Treasure inside the ship we couldn't find any ship wreck, and it was getting dark, so we got back home so that we can continue looking for ship the next day. My heart was racing and I couldn't sleep.



We were daily looking for the Treasure every day and came back to home tired and returning unsuccessful, started to get exhausted and had enough. I said to Rohan that we should rather stop looking for the Treasure as it may be just a myth. Rohan said that if we stop looking for the Treasure now, we will never know what is inside the Treasure and what is inside the Treasure.

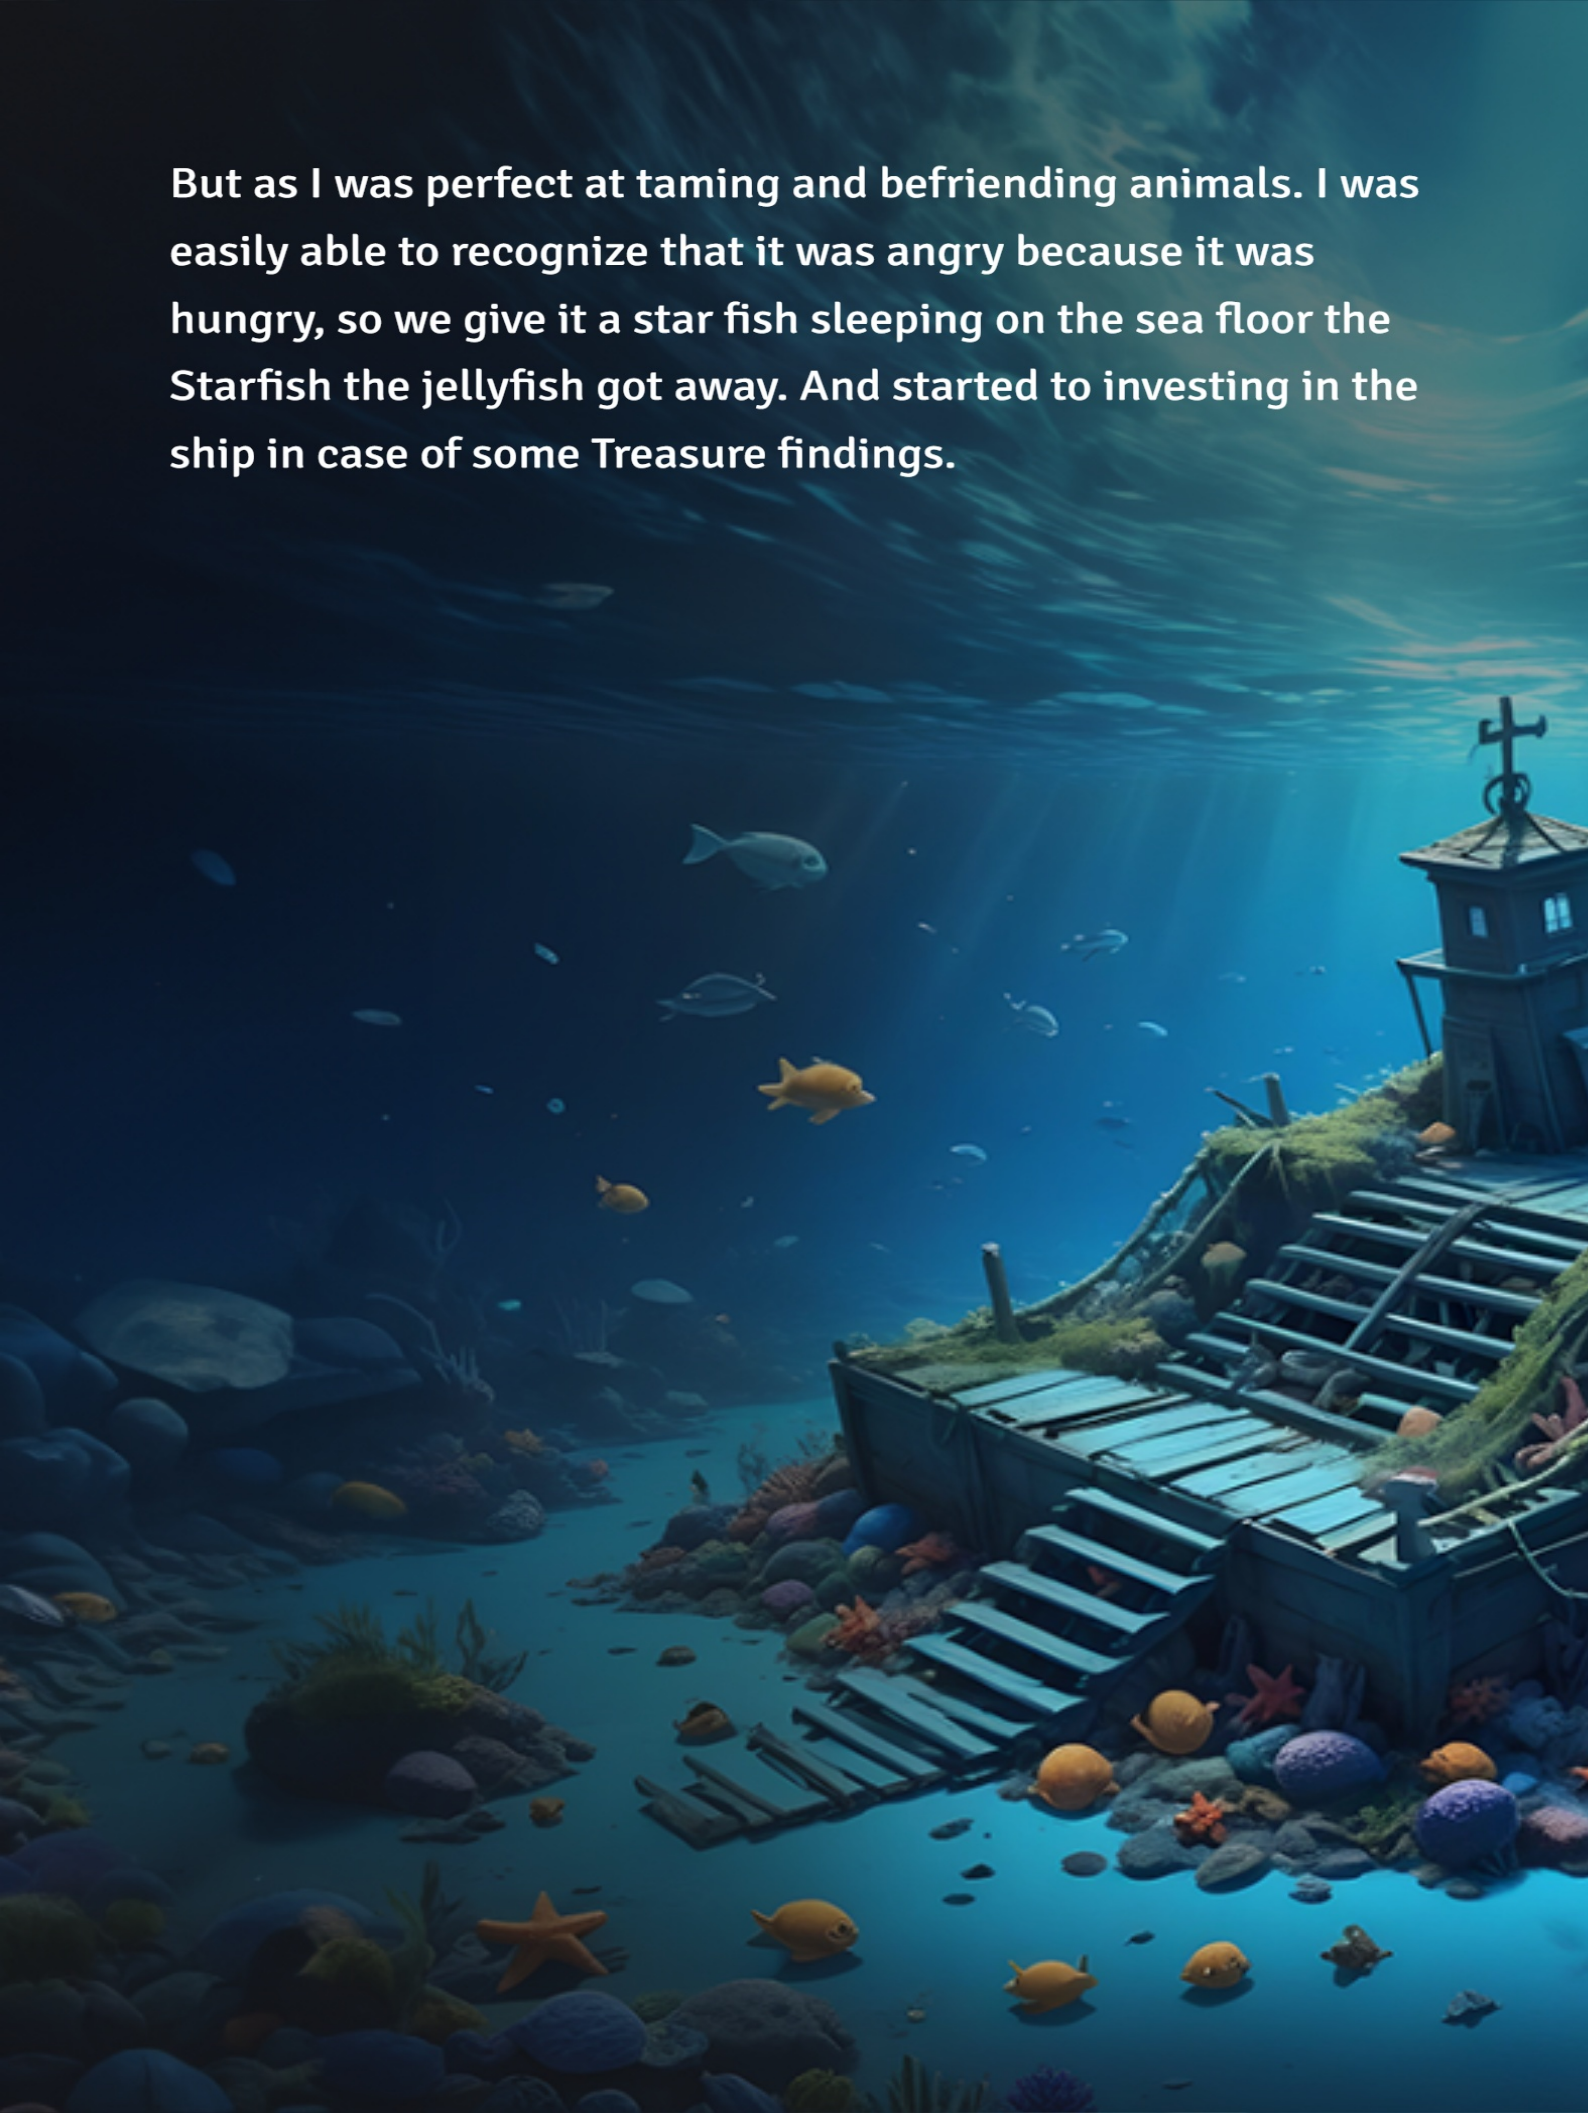


We started looking for the Treasure with Rohan, me and some of his crew members. We looked everywhere but could not find anything. Furthermore, we decided to go down the ocean and look for it. Besides, we went down the ocean and looked for the wrecked ship. We could not find anything. After that, we went to the ocean's very bottom and looked for it.

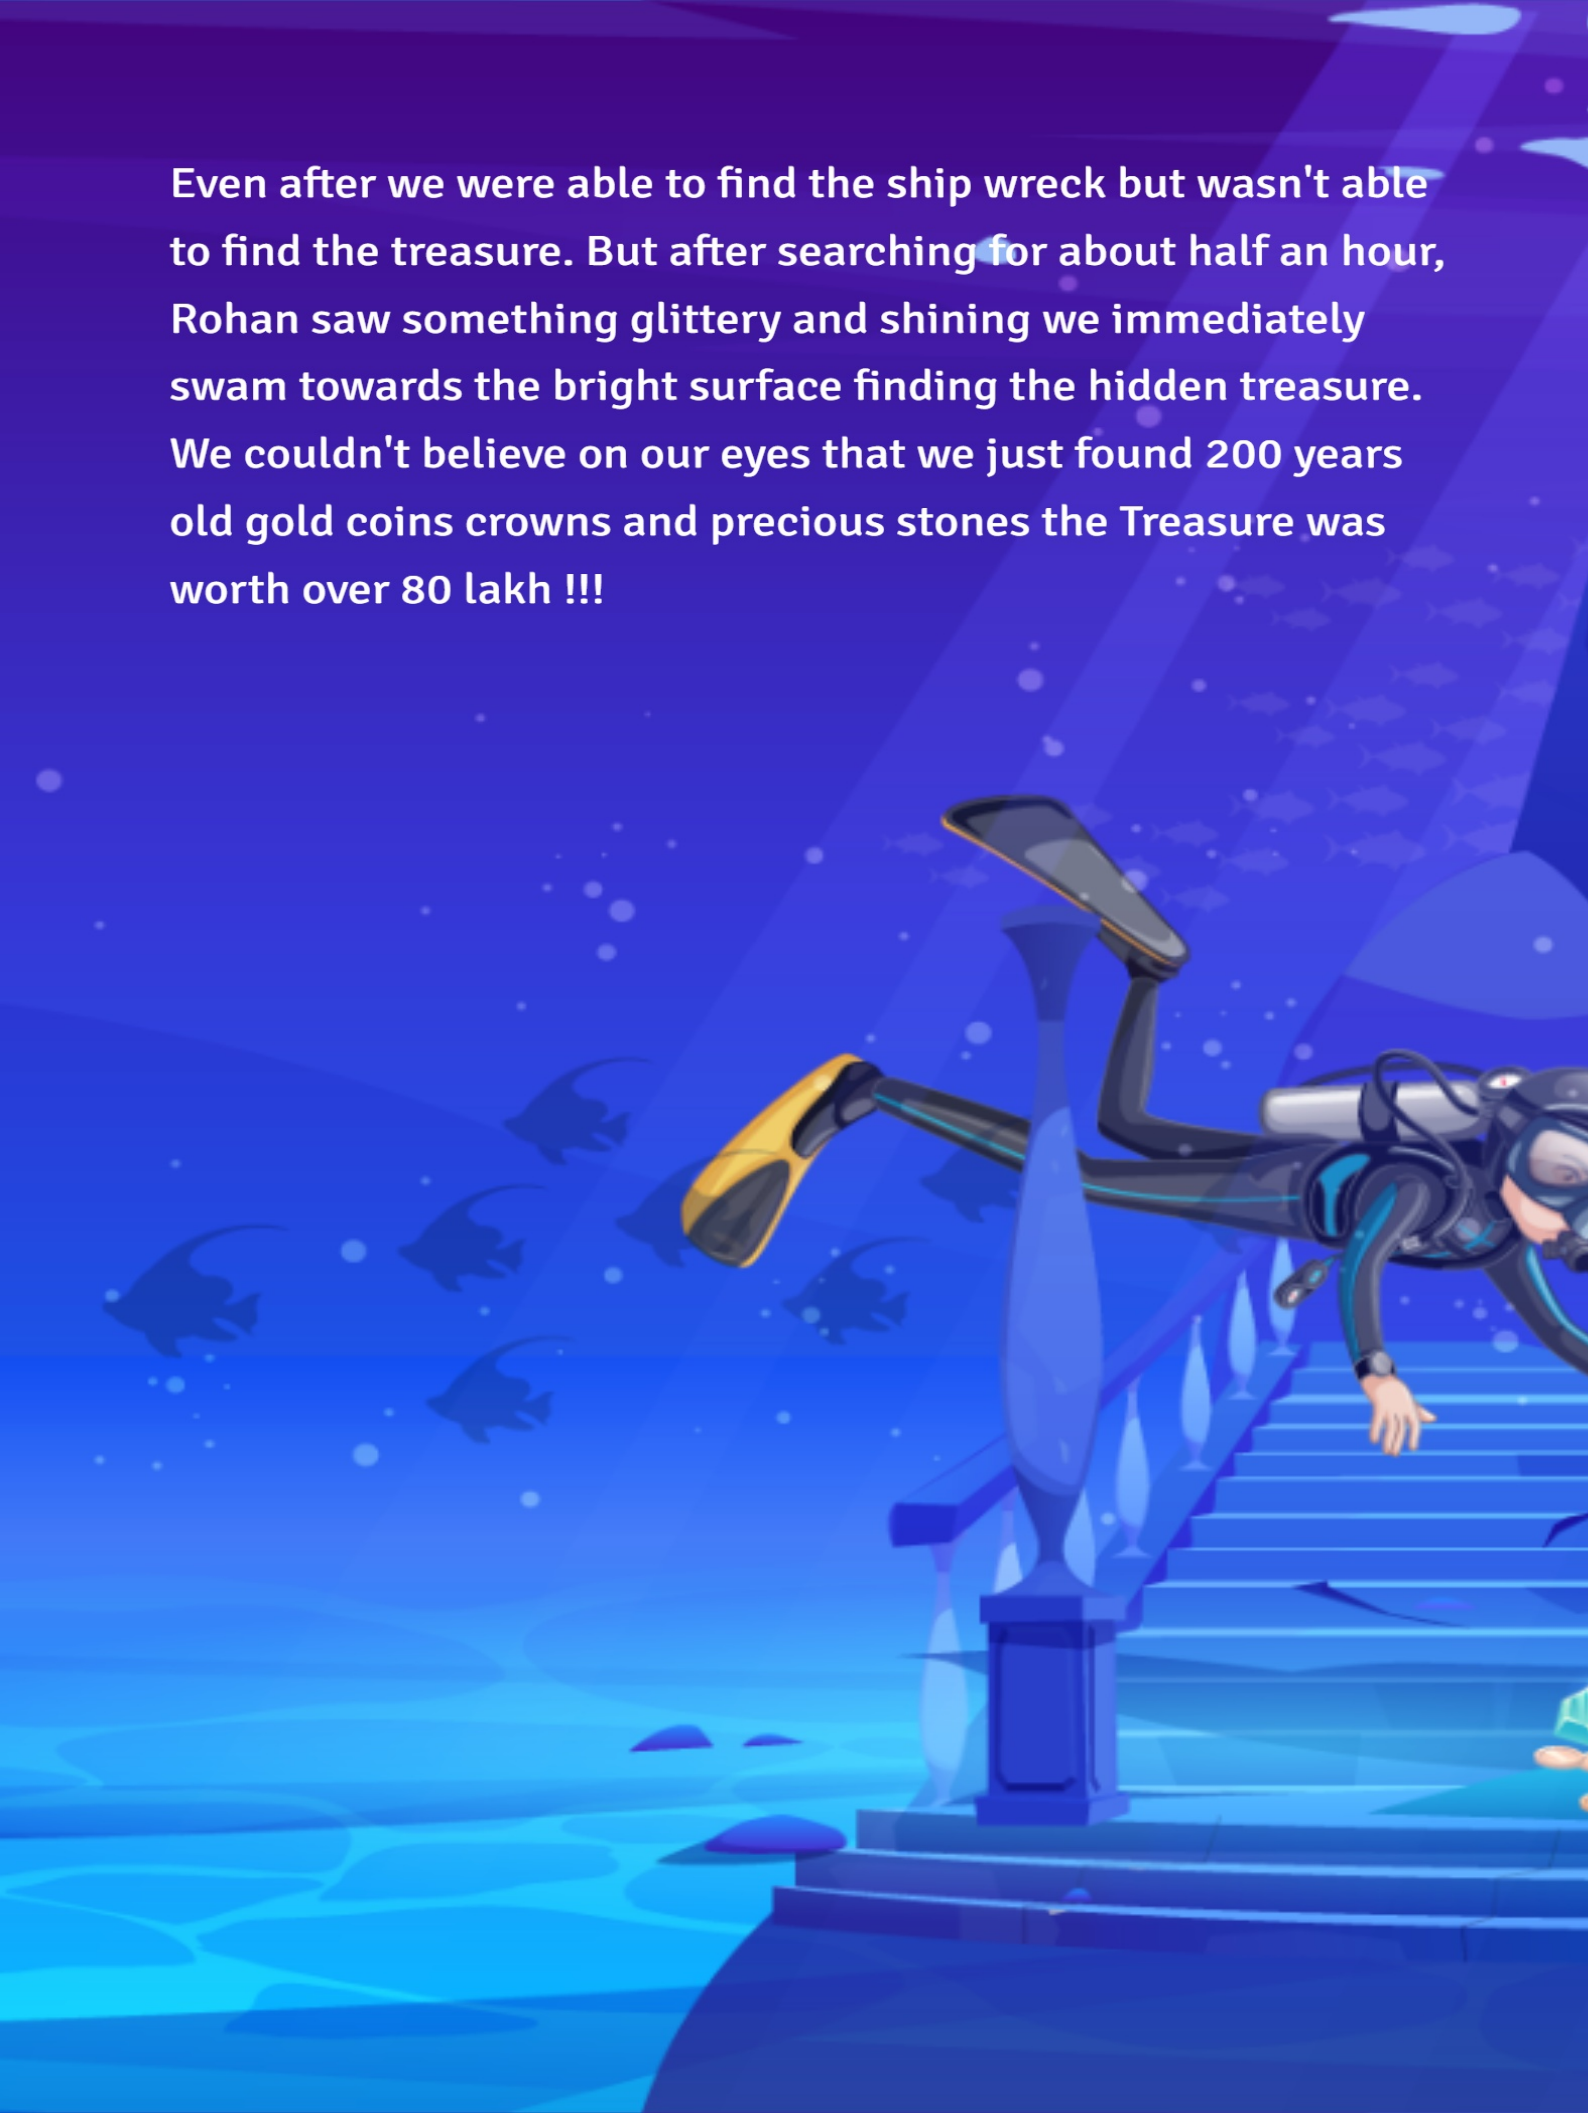


Eventually we found the ship wreck but suddenly a gigantic jellyfish which seem to be extremely poisonous, dangerous and aggressive got in our way. Then suddenly it started to glow with an aggressive red light. Thought that it couldn't get any worse started to towards us hastily everyone started running here and there.

But as I was perfect at taming and befriending animals. I was easily able to recognize that it was angry because it was hungry, so we give it a star fish sleeping on the sea floor the Starfish the jellyfish got away. And started to investing in the ship in case of some Treasure findings.



Even after we were able to find the ship wreck but wasn't able to find the treasure. But after searching for about half an hour, Rohan saw something glittery and shining we immediately swam towards the bright surface finding the hidden treasure. We couldn't believe on our eyes that we just found 200 years old gold coins crowns and precious stones the Treasure was worth over 80 lakh !!!



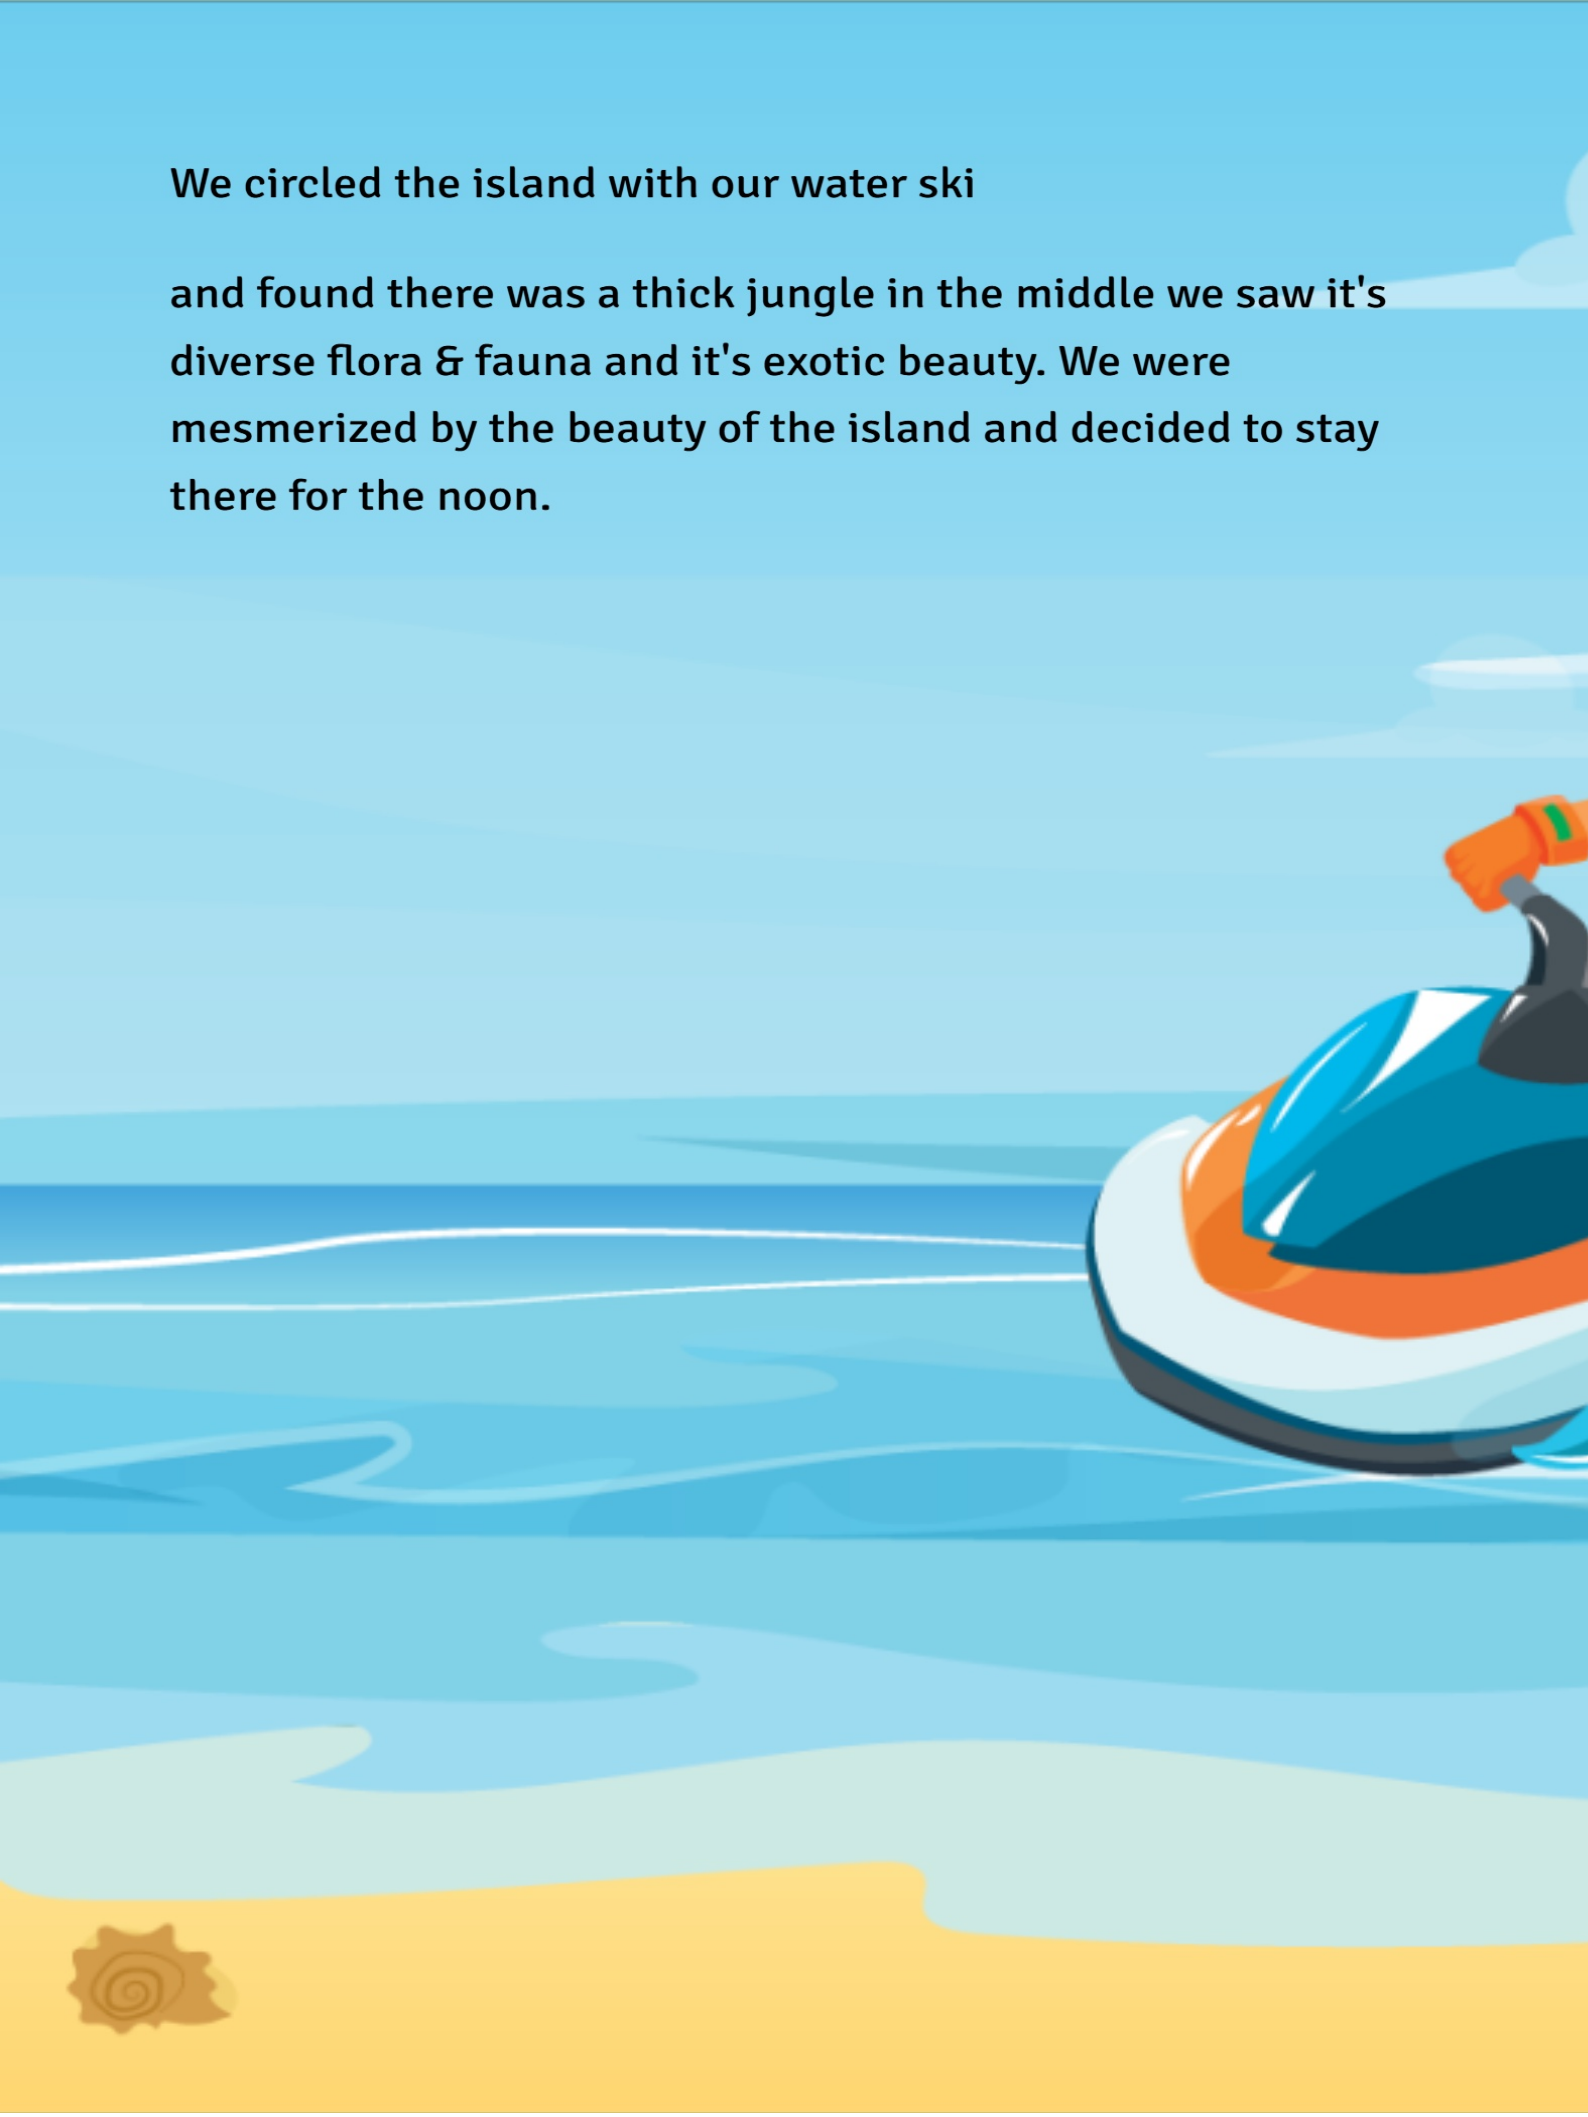
Chapter 3

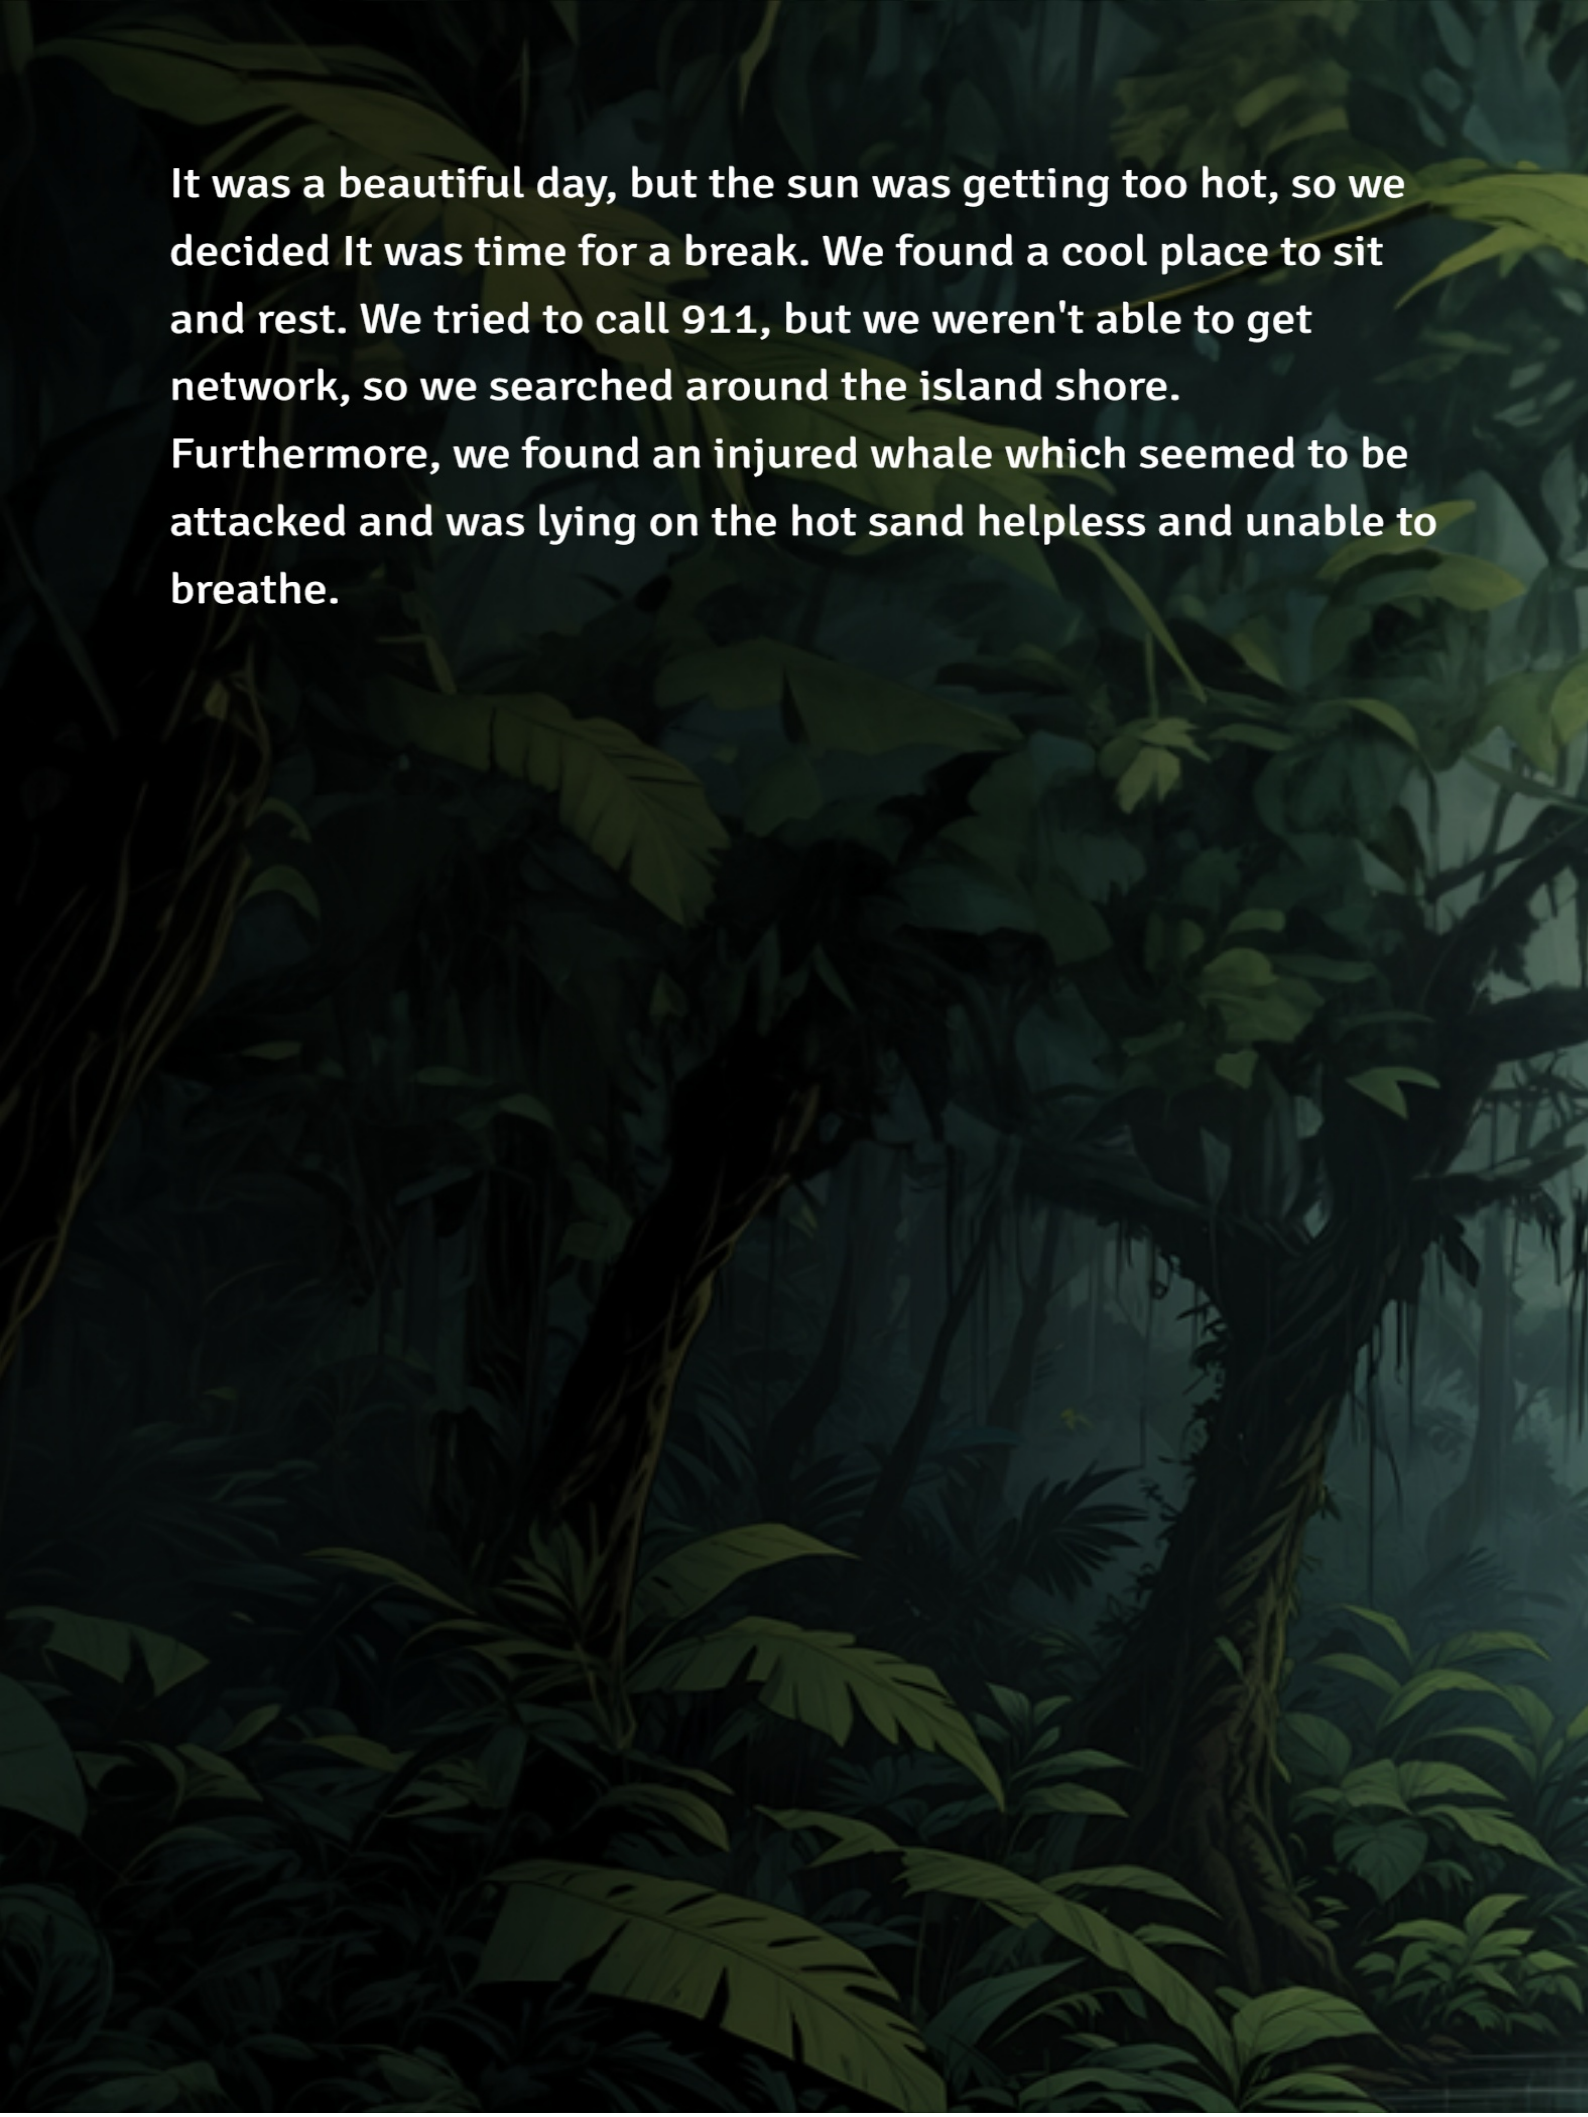
The Giant Of Indian Blues

We enjoyed playing water sports, and we were having so much fun that we didn't even notice how far we had drifted from the shore. Suddenly, we stumbled upon a mysterious island that had never been seen before. The island was huge and had a thick jungle on one side and a beautiful beach on the other. We tried to find our way back but were unsuccessful, so we instead decided to explore it.

We circled the island with our water ski

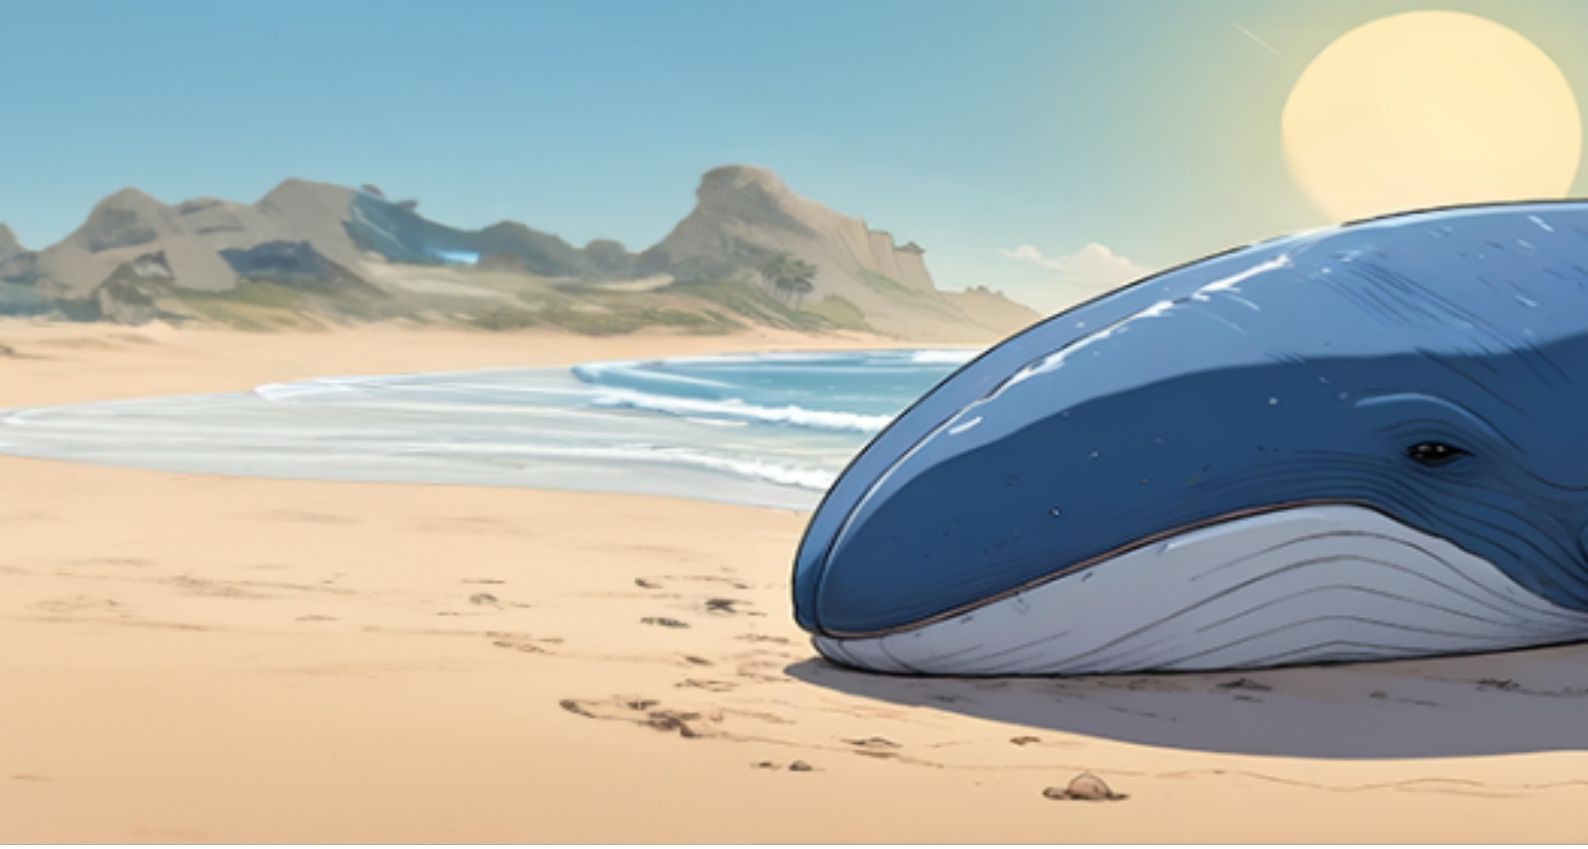
and found there was a thick jungle in the middle we saw it's diverse flora & fauna and it's exotic beauty. We were mesmerized by the beauty of the island and decided to stay there for the noon.



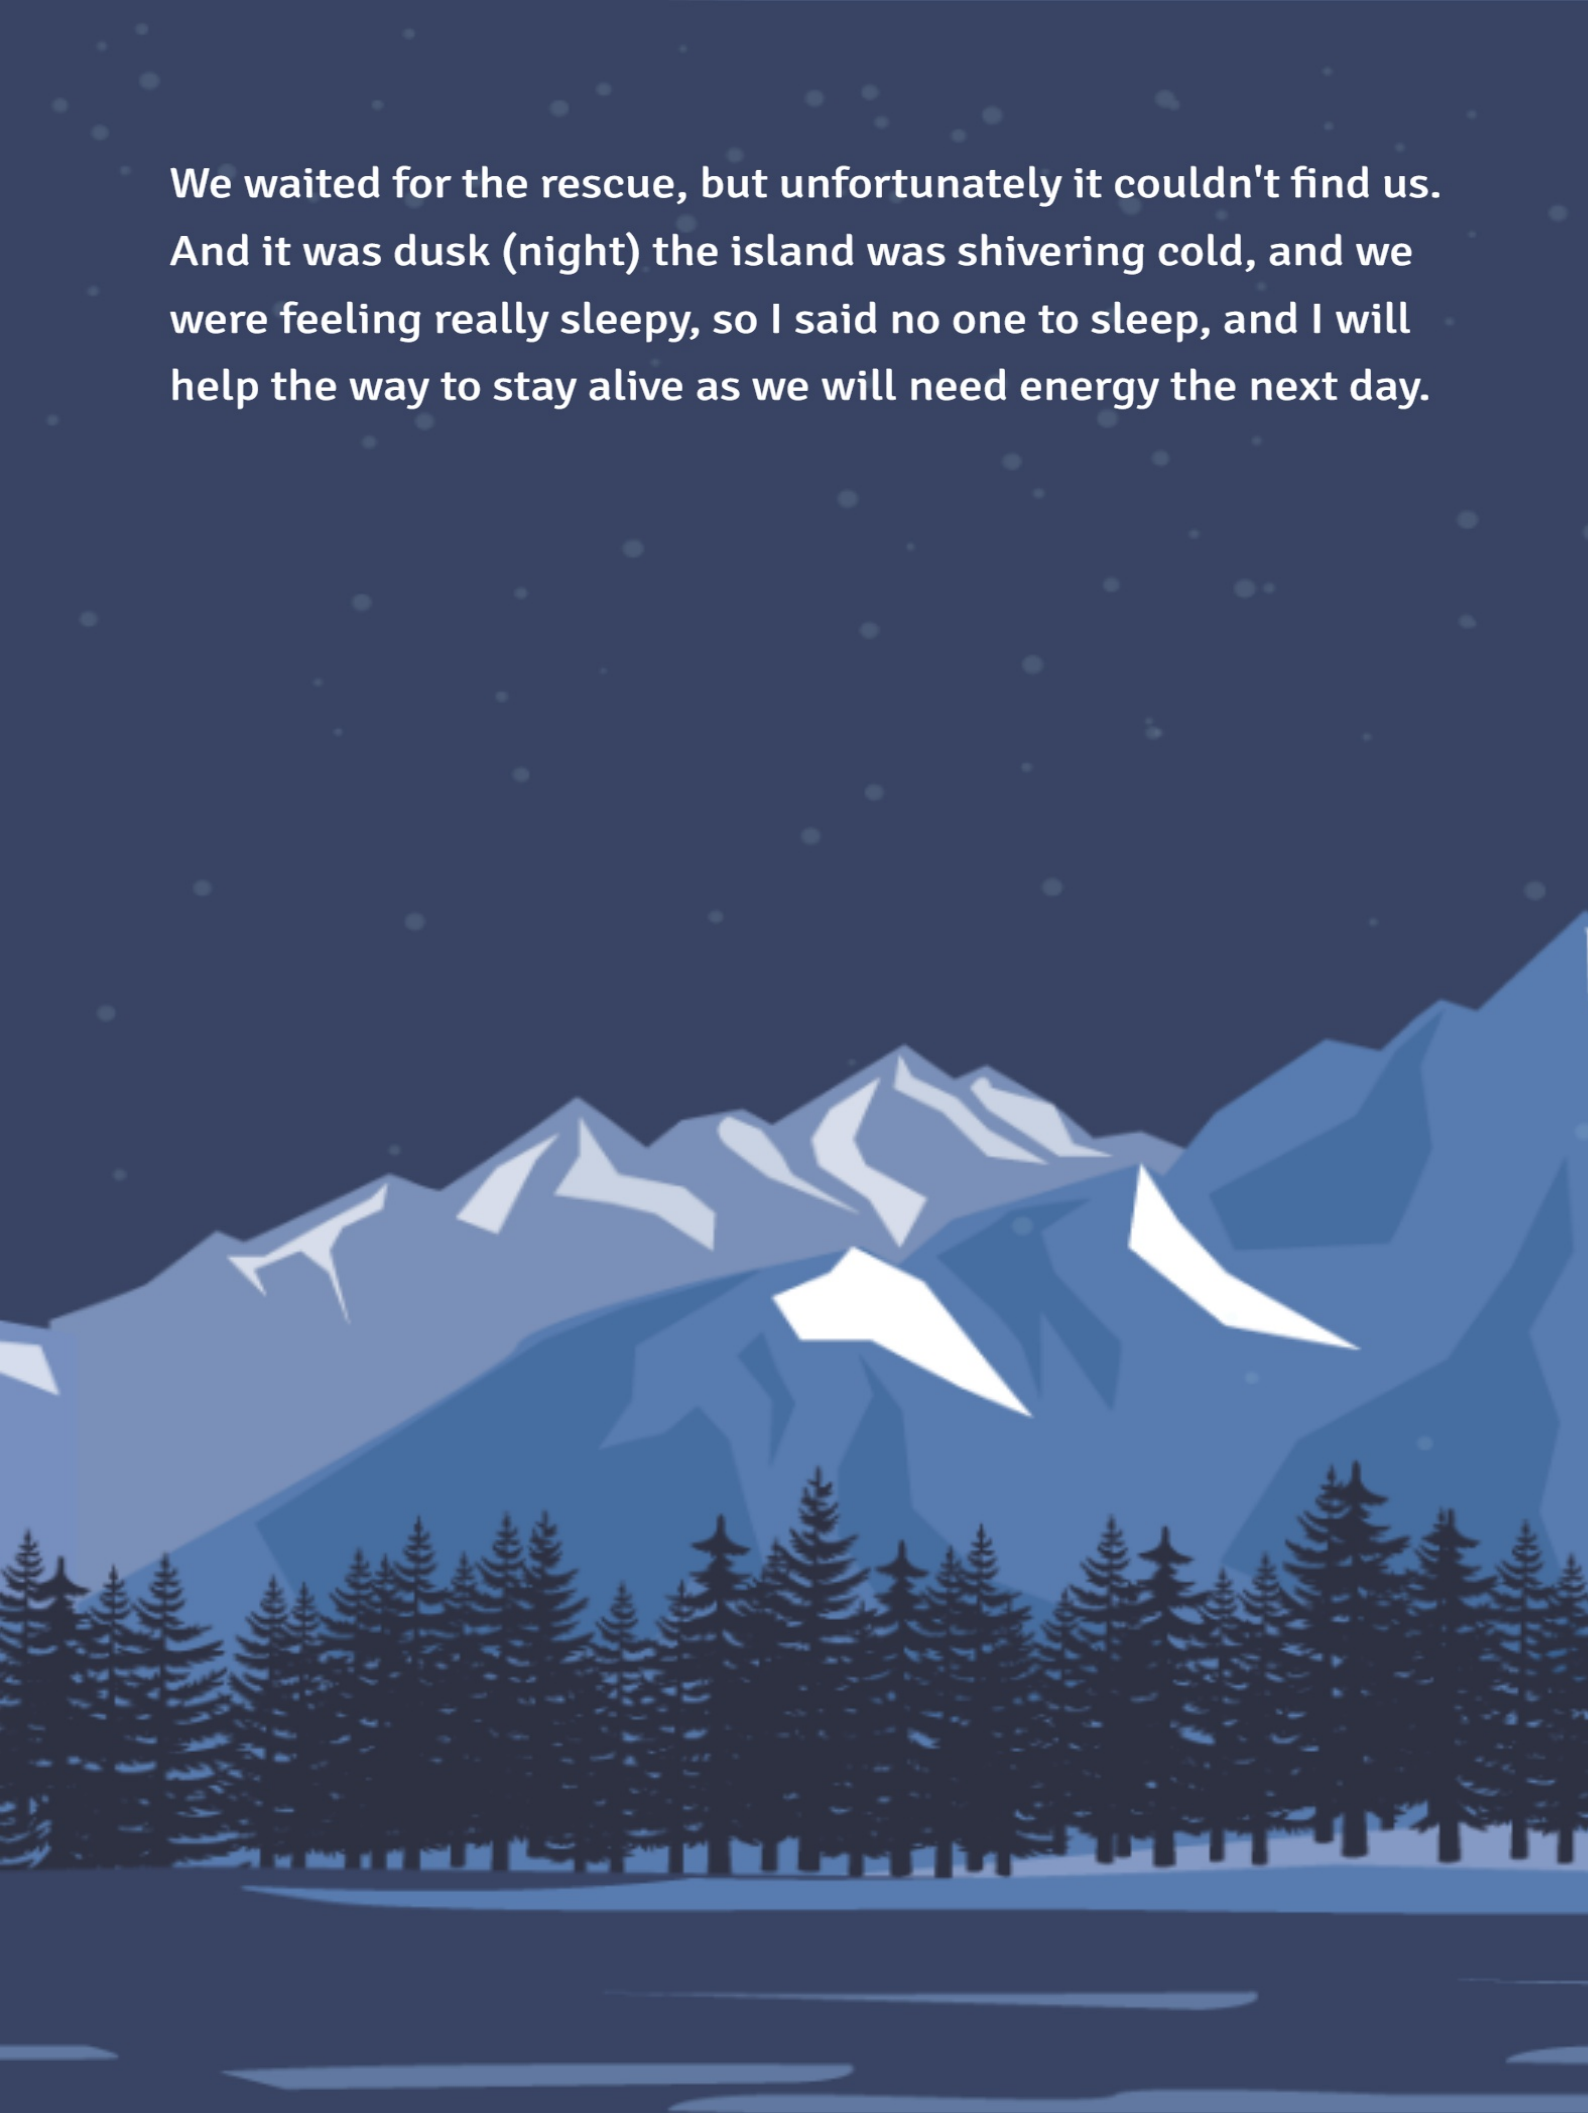


It was a beautiful day, but the sun was getting too hot, so we decided It was time for a break. We found a cool place to sit and rest. We tried to call 911, but we weren't able to get network, so we searched around the island shore. Furthermore, we found an injured whale which seemed to be attacked and was lying on the hot sand helpless and unable to breathe.

We tried to push the whale back in the water before it loses it breathe. The fact that a whale can hold its breath only upto 90 minutes was freaking me out. But we tried to stay calm and find the solution. Rohan came up with an idea and said that "we should try scooping up some water with large shells and pouring it on the whale so that we can keep it alive until rescue finds us ".



We waited for the rescue, but unfortunately it couldn't find us. And it was dusk (night) the island was shivering cold, and we were feeling really sleepy, so I said no one to sleep, and I will help the way to stay alive as we will need energy the next day.

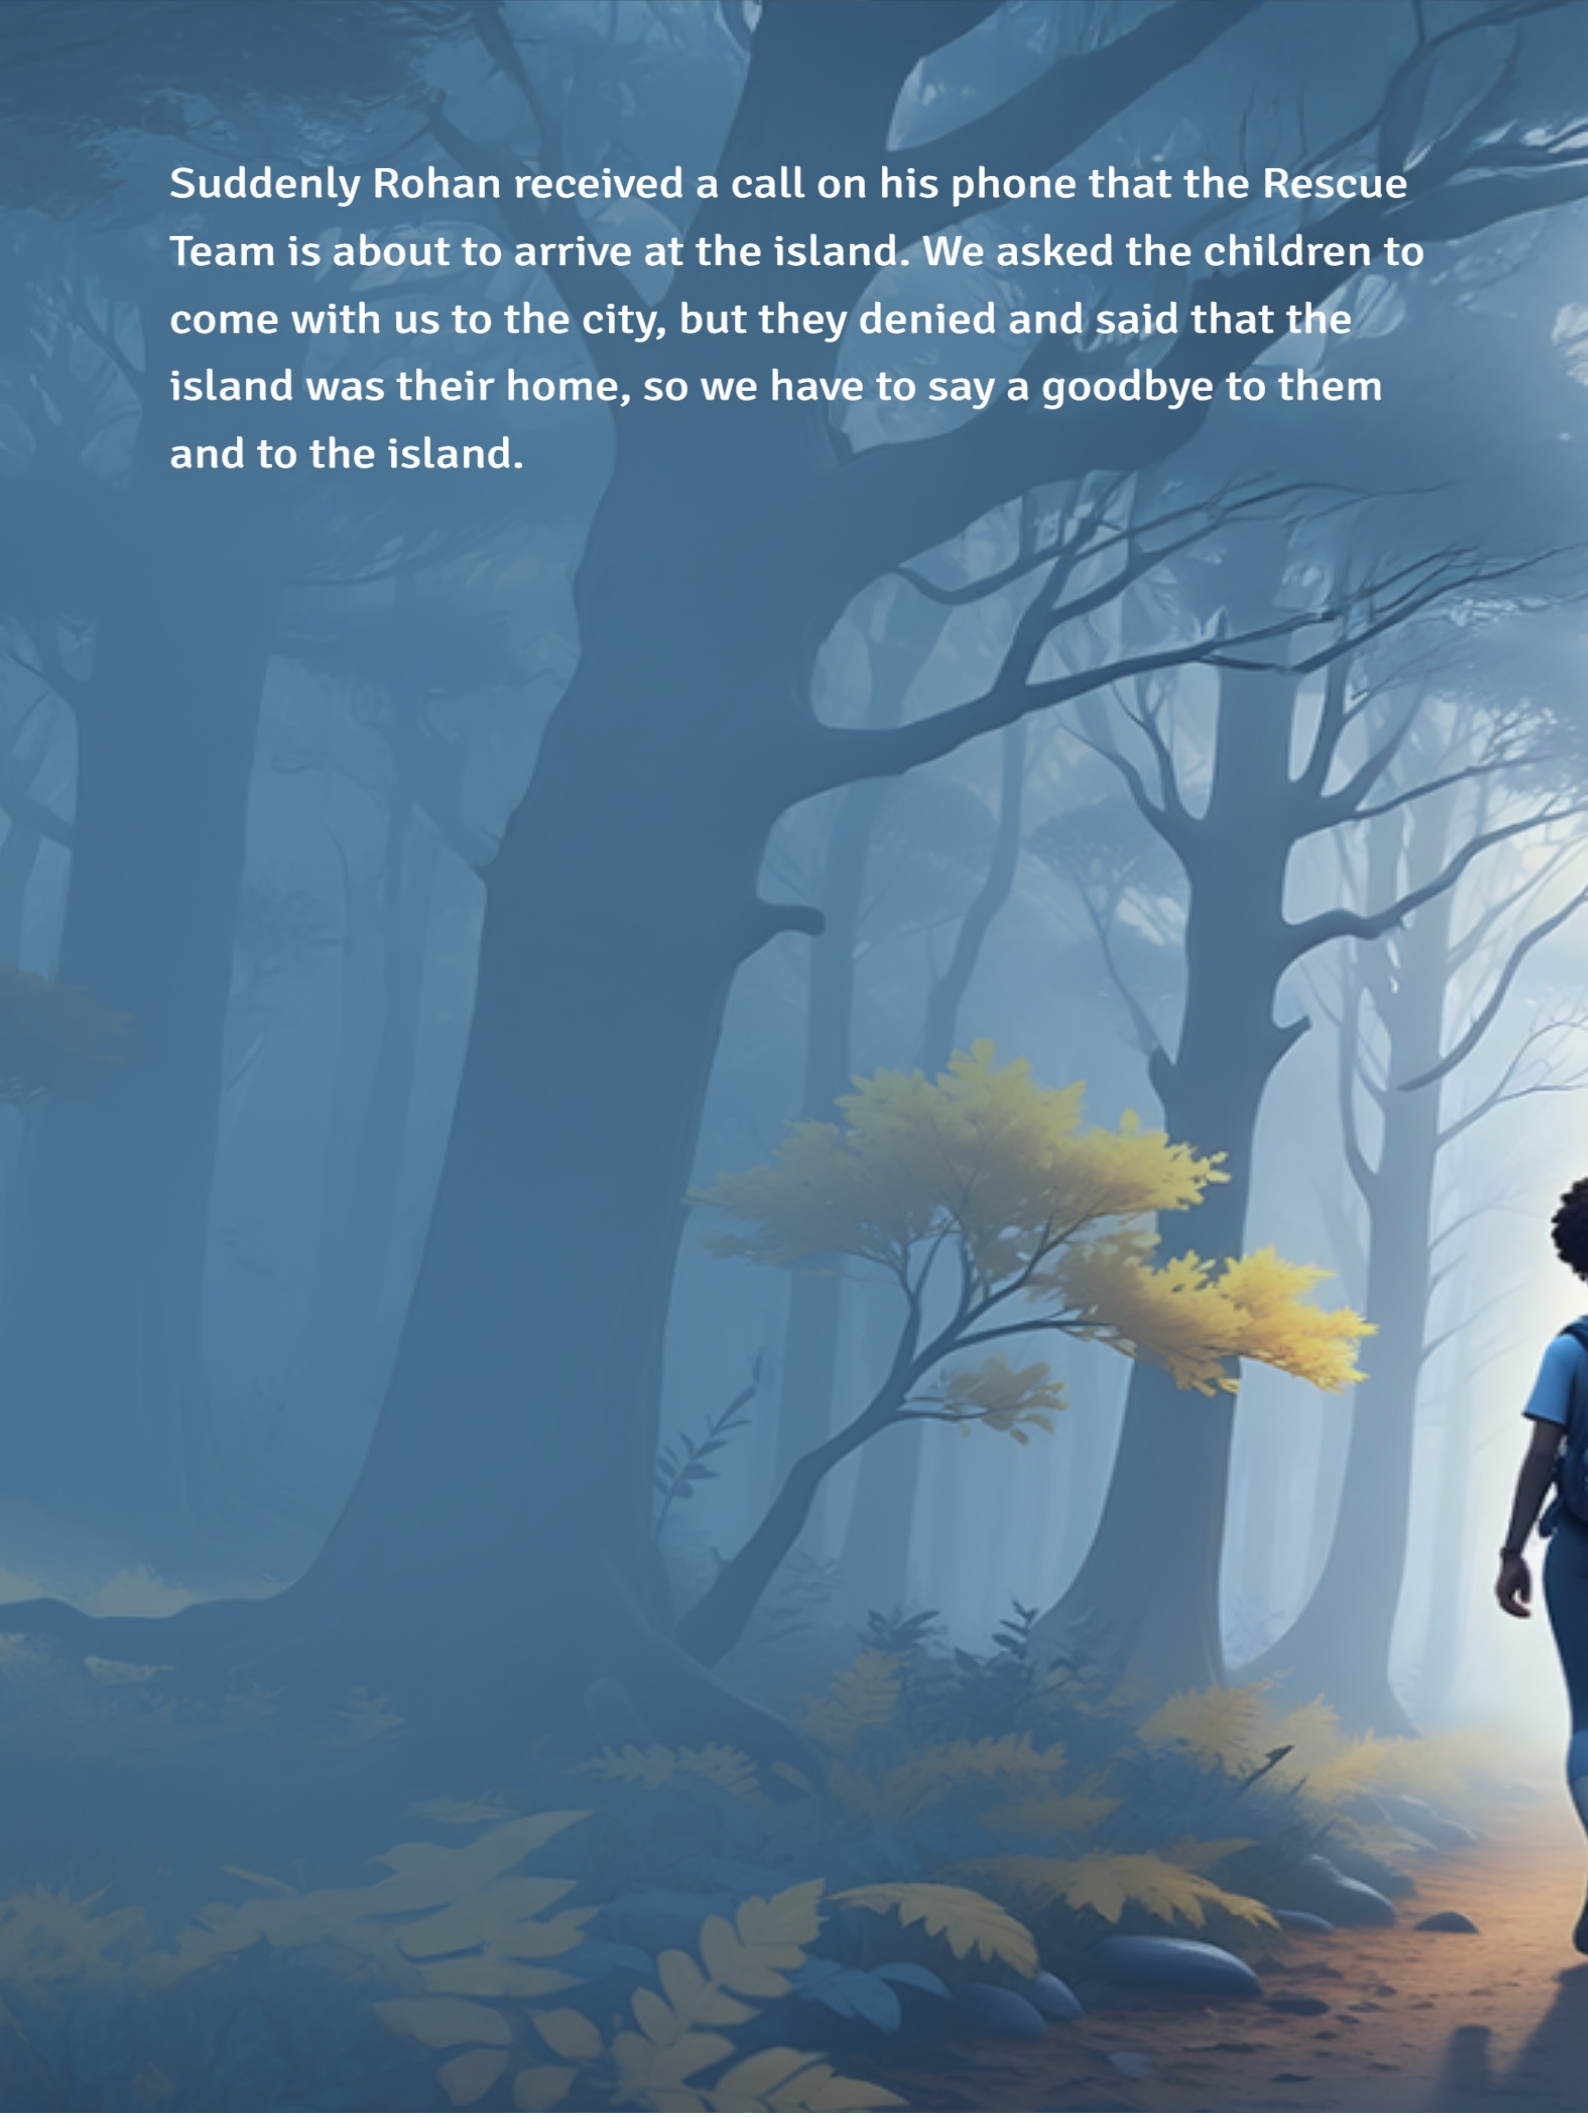


I heard some noises from inside the jungle, so I told Rohan to investigate who it was. Rohan got back he seemed the really happy running towards with a smile on his face, so I asked him what he saw ? He said that he saw a bunch of kids in the nearby forest in a wooden hut which seemed to live here since their birth.

So we decided to dig some sand in order to get the whale in the water. Rohan again got in the forest and came back with all the children helping us in digging out the sand. I thanked them for helping us. They said that it is night, and we should talk about this the next morning which looked like a nice idea to me and Rohan, so we slept in the camp with them for the night.

They took me to the village where I had some food water. The locals were friendly and kind. We told them how we got here and how the brave children helped us I also told them about the city. They had never heard of anything out of the island.

We asked from the locals if we can get network somewhere on the island they said that they had never heard of this thing called it network, but you might find it on the mountain was, and they told us the directions, and luckily we were able to find signal and call Rescue Team.



Suddenly Rohan received a call on his phone that the Rescue Team is about to arrive at the island. We asked the children to come with us to the city, but they denied and said that the island was their home, so we have to say a goodbye to them and to the island.

We had to wait a long period of time for Rescue Team to arrive. But like the ending of every film and story we had to leave the island but were the given the title to find the 'island of macaws'. But the story wasn't over and the worst part was that after coming back to the beach we had to pay extra money for keeping the water skis for an extra long period of time(2 days).

Chapter 4

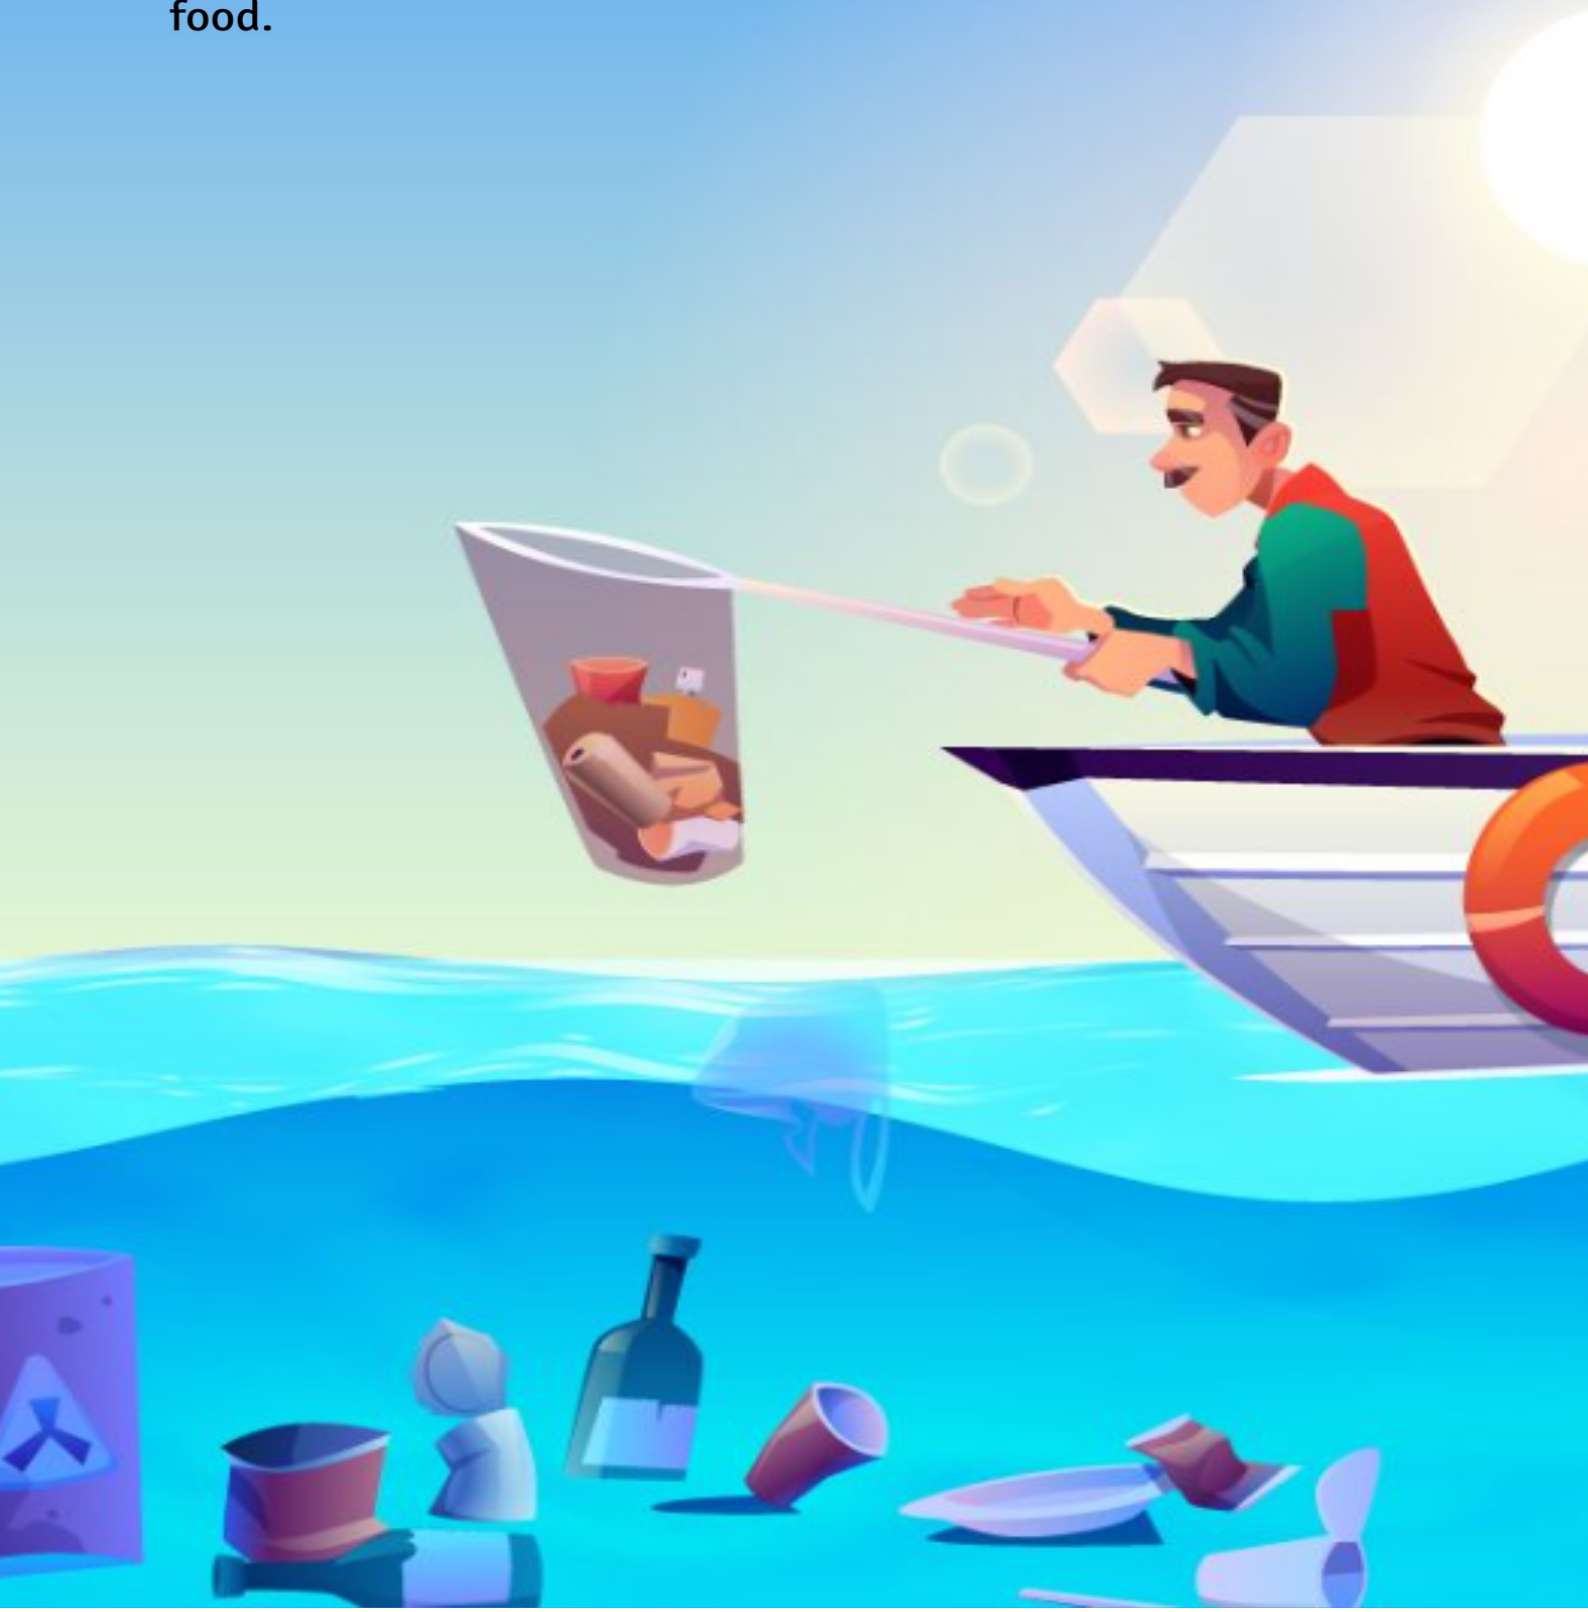
Cleaning the shores

After exploring the island we didn't have anything to do so we decided to go the one of the most popular beach in the area, but we didn't know that we were going to face the worst nightmare of our lives.

When we got to the beach we were surprised to see so much rubbish lying on the sea floor. Asked from the locals is someone came to clean the beaches and, they said, No, no one came to clean the beaches we to listen the answer. How can someone be so careless about a really popular beach that is being talked the worldwide.

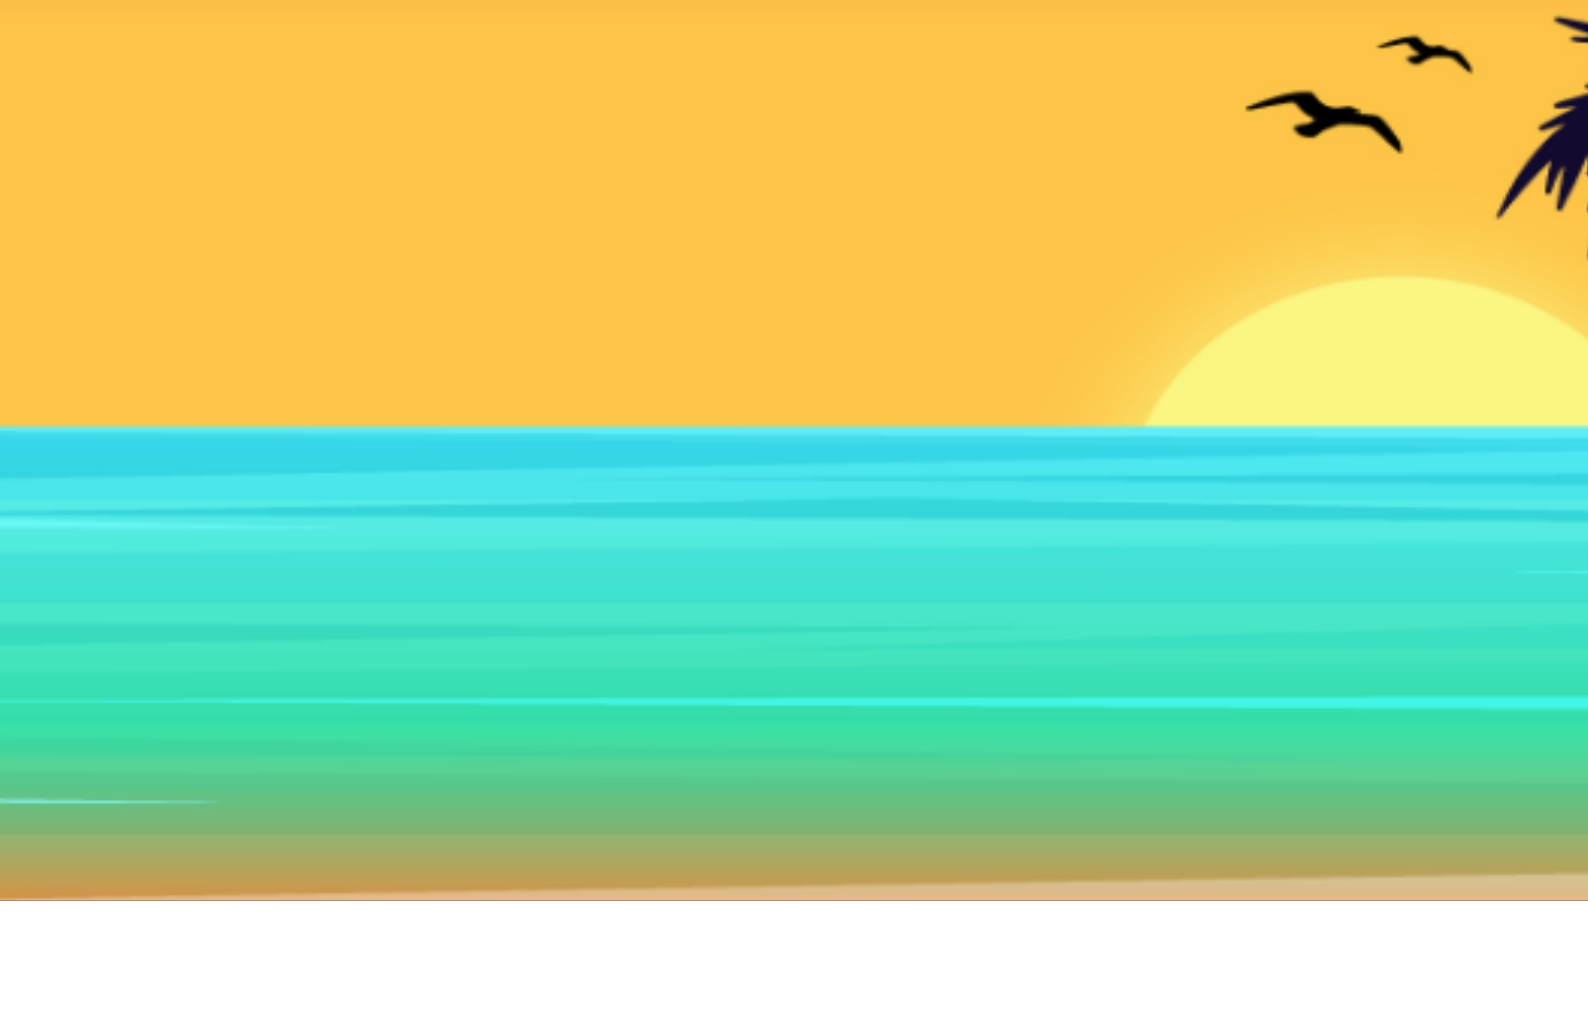
After understanding the situation we made a team of me Rohan and some of his friend, and we named our team "THE WARRIORS OF THE SEA". We started our mission of cleaning the sea and after working more than 3 hours of continuous cleaning we couldn't even make it 30%. But I knew I can't give up now we continued to work for 5 hours until our hands started paining.

The next day we took help of some boatmen to help us to clean the water. We even found at least a tonne of polythene. We also found some dead fishes who died to the amount of toxic waste, and we also found some dead fishes with strands of polythene in their mouth. Who might have eaten plastic thinking it was food.



We saved a lot of animals from dying to the never given attention of humans. It was really disheartening to see how throwing a simple bottle today can take life of someone tomorrow. We were working for a lot of time and your hungry so decided to go to a nearby restaurant to have something and continue tomorrow.

This procedure continues to happen till 10 to 11 days after which we finally got success cleaning the whole beach as well as its water. We were awarded 3 lakh rupees by the Tourism Authorities.

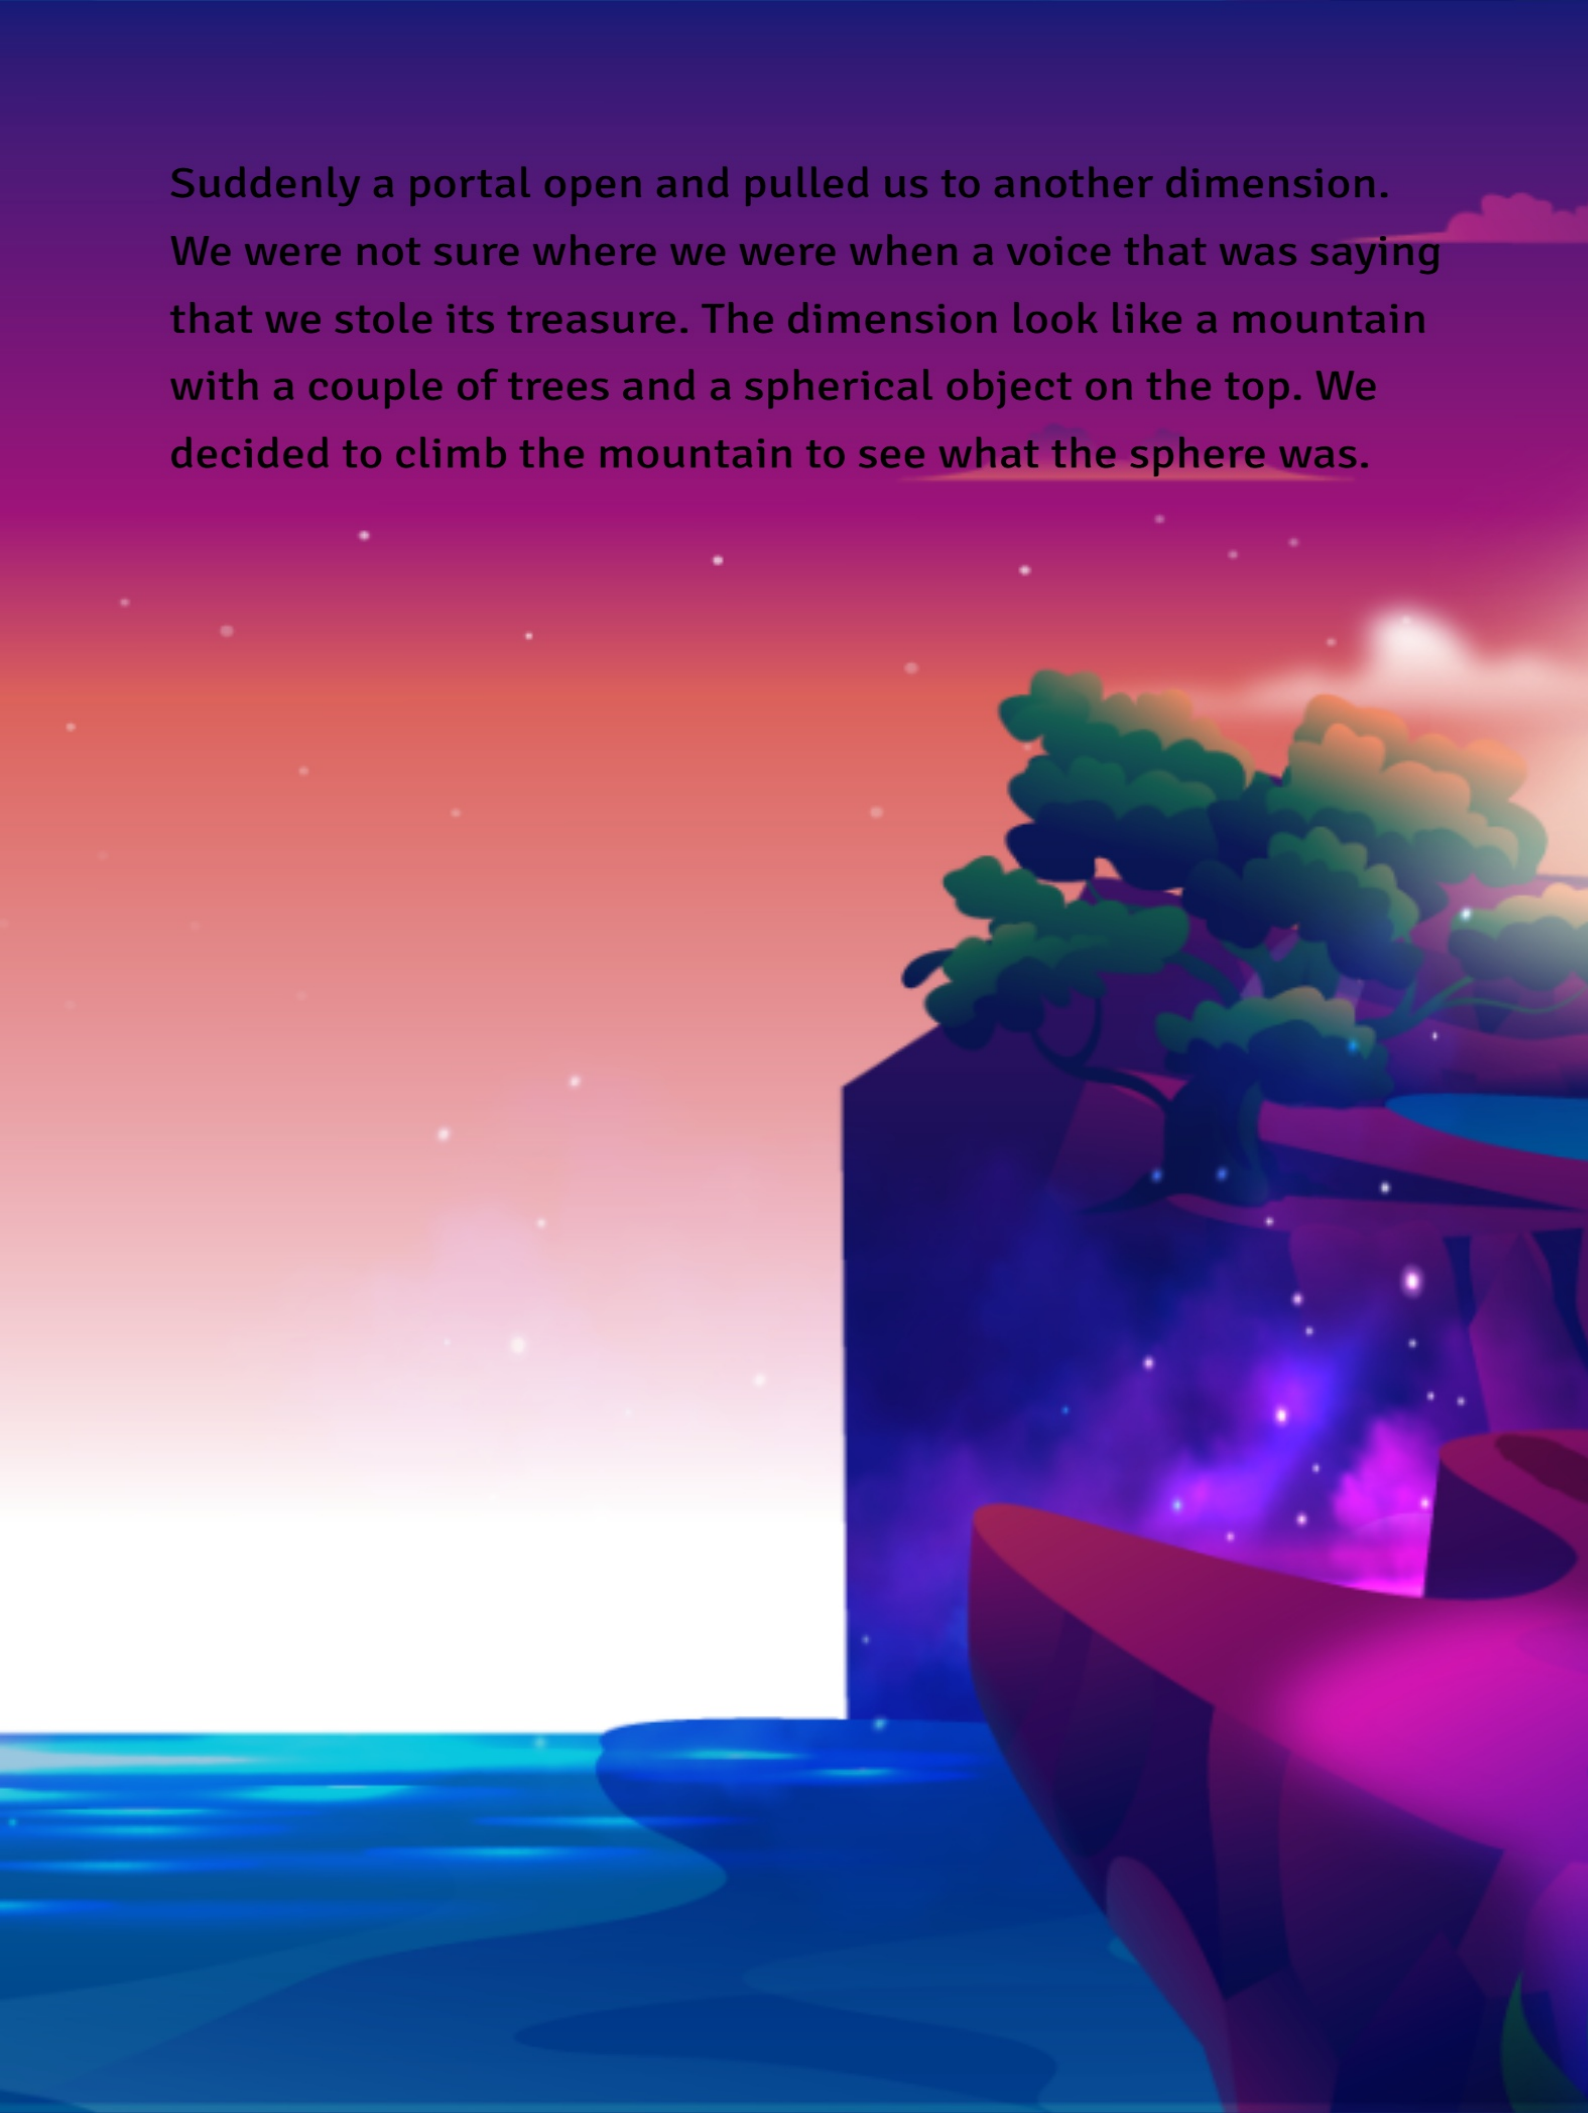


Chapter 5

Wrath Of Zarathor

when we founded the treasure underwater we didn't notice that there was a book inside the crate. And that book was the portal to the dimension of Zarathor. The ruler of another dimension and the real owner of the treasure that we found. That maybe the reason that we found weird inscriptions on the coins.

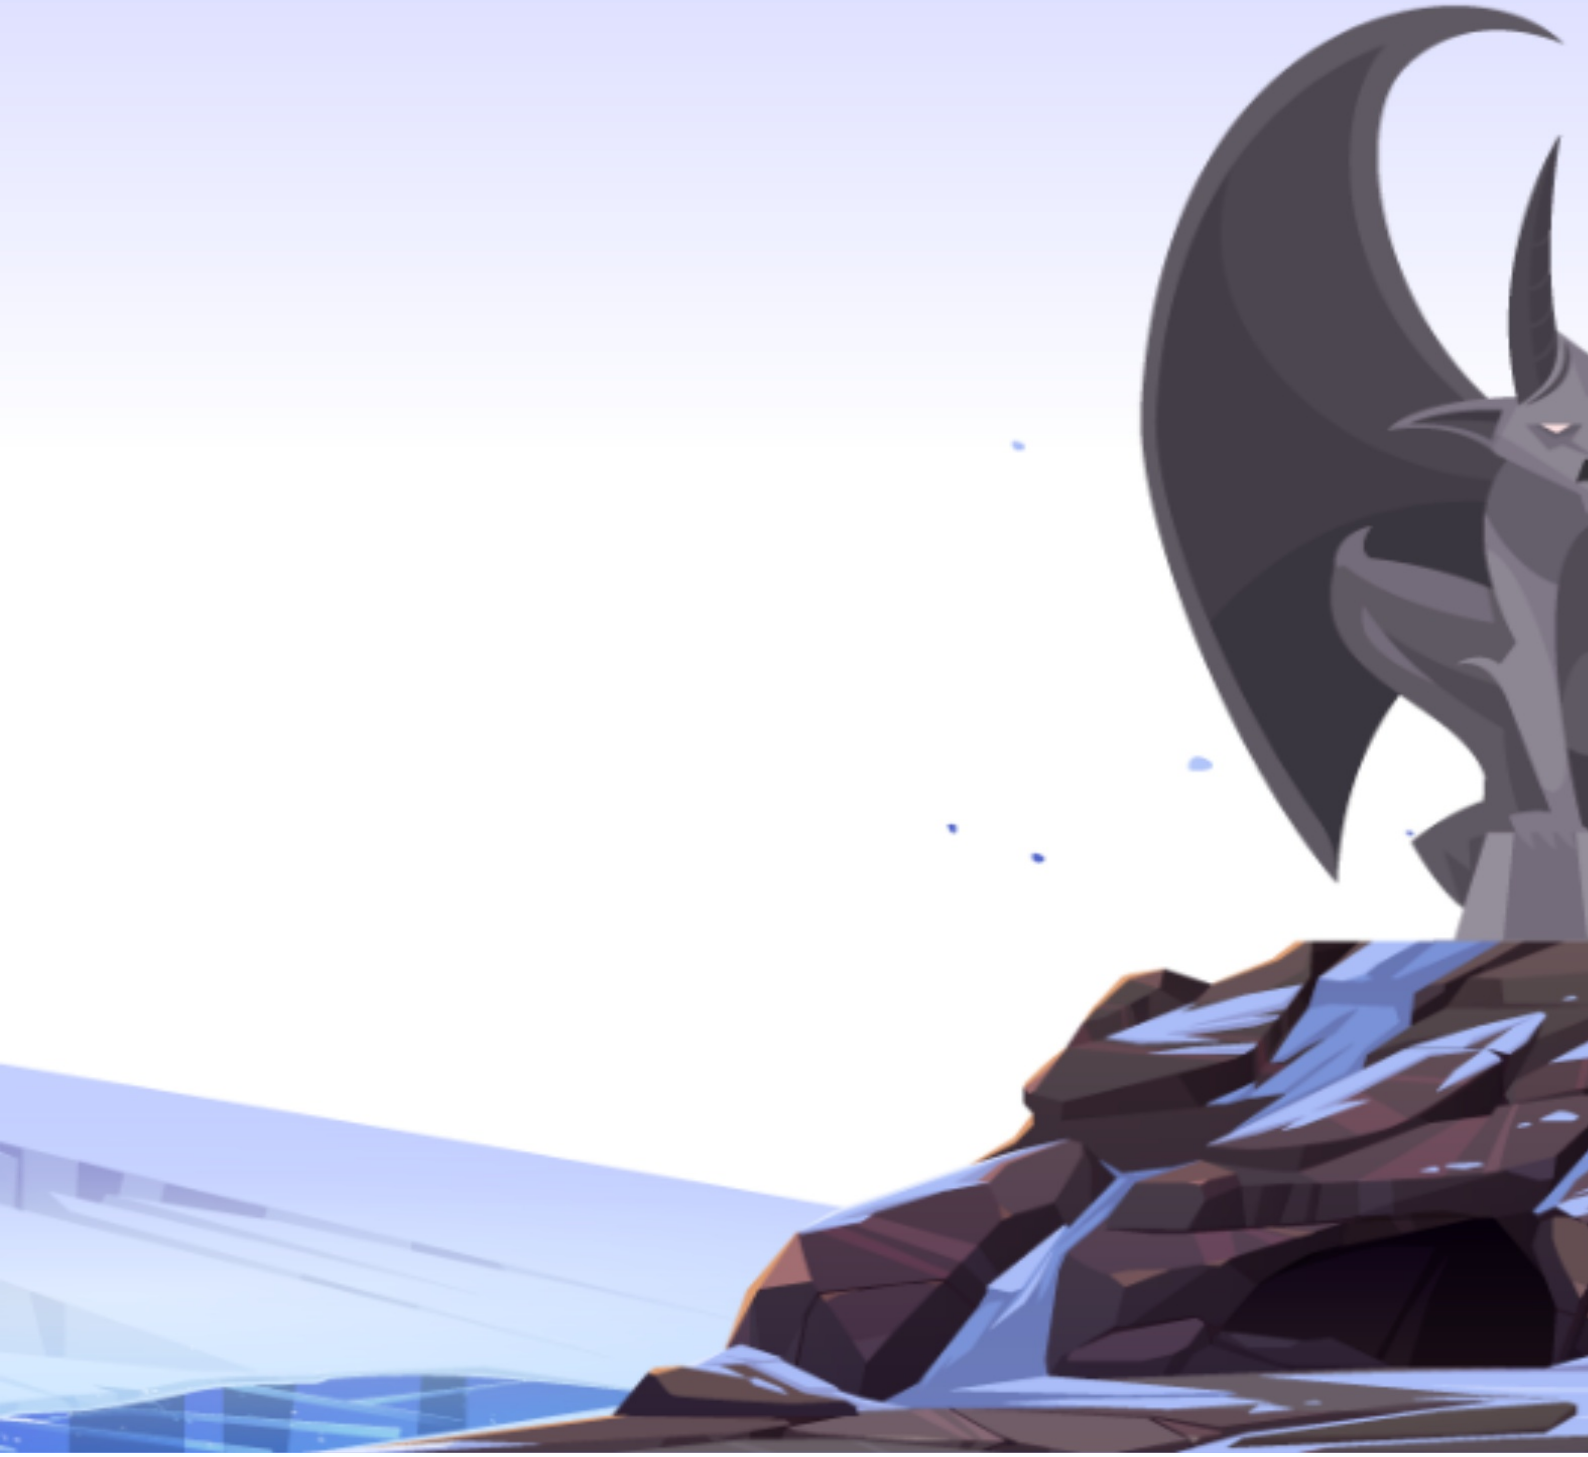
Suddenly a portal open and pulled us to another dimension. We were not sure where we were when a voice that was saying that we stole its treasure. The dimension look like a mountain with a couple of trees and a spherical object on the top. We decided to climb the mountain to see what the sphere was.



The dragon started attacking us we run as fast as we could to save ourselves, but the Dragon had an advantage as it could fly. It was very scary to see a fire breathing lizard chasing on us. The weather there was unstable and changed every half an hour.We had to run through a lot of mountains, forests, and rivers to escape the Dragon.

We somehow got rid of the Dragon by hiding in a swamp then it was a giant person looking like a Viking. We ask if he could help us to get out of the dimension he said that it is only possible to escape the dimension if you are worthy. Asked him how can we prove that we are worthy he said that you can prove yourself were the by going to the Zarathor.

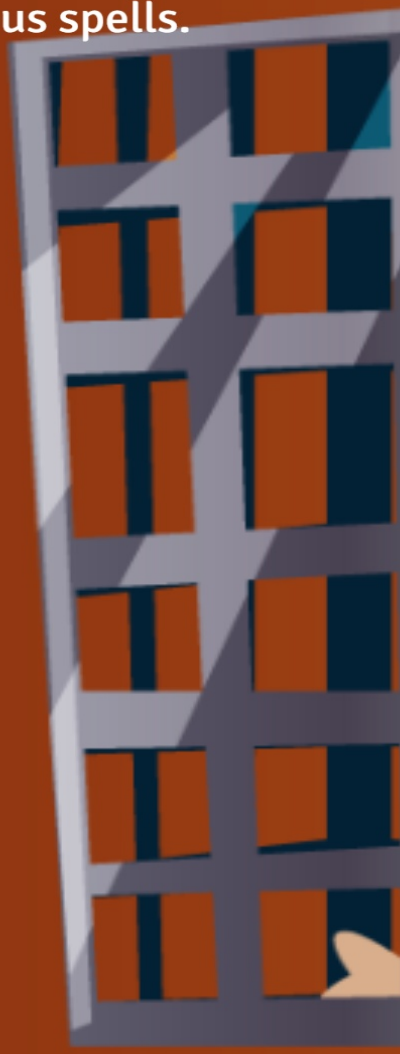
He was the first life that looked like a human. He told us the directions to the Zarathor. The thing about the weather of getting worse and worse. The condition changed like to sunny hours leading to rain and to the snowfall. We found a stone statue sitting on a wooden stand like something.



Then it's started moving and chasing us it was really frustrating that everything want to chase us

it's started flying and breathing Beams and somehow spawning stones to fall on us. We were getting tired. We were so tired that we were falling asleep. Furthermore, We fell and blacked out.

And when we work up we were in the cage in front of Zarathor. And a big army of creatures such as orges and goblins. We pretended like we were still unconscious to prevent drawing attention. Unfortunately Zarathor was smart enough to notice even the slightest movement. Zarathor said if we didn't prove we are worthy will kill us. So Rohan dared enough to ask what have we done. Zara Thor replied saying that he knows we have stolen treasure which had the 'mantras' cast various spells.



Then started our trial of worthiness.

the first question we were asked was, "What is the true nature of balance between light and darkness ?" we answered "wisdom" and then we were asked "what is the true nature of wisdom?" we answered "love" then we were questioned "Would you be willing to sacrifice something precious to you for the greater good?We answered"Yes, I would be willing to sacrifice something precious to me for the greater good. I would choose to sacrifice my most cherished memories.

Zarathor was impressed by our answers and let us keep the Treasure. We asked him to return to our dimension, so he gave us one of his dimension travelling mystical horse so that we can ride it to our dimension. It was fun to zap from a dimension to another while riding on mythical creature. It took a hardly 20 minutes to travel to the dimension we belong to.
